ADVERTISEMENT.

The Publishers of the Cambridge University Calendar hope that from the very great assistance they have this year received in preparing the Calendar for publication, it will be found more accurate than that of any preceding year; and they trust that the introduction of the list of the Masters of each College from its foundation, will not be deemed a useless addition.

To the Moderators, who have kindly allowed the insertion of their Problems, and to the other Members of the University who have given their assistance in correcting the Work, the Publishers desire to make their most grateful acknowledgments.

PROFESSORSHIPS.

REGIUS PROFESSOR OF DIVINITY.

The Vice-Chancellor, the Master and the two senior Fellows of Trinity, the Provost of King's, and the Master of St. John's and Christ college, are the electors. If any of these be Vice-Chancellor, the President of Queen's acts as substitute. The candidates must be B.D. or D.D. and the day of examination is the eighth after the vacancy. This Professorship, founded by Henry VIII. 1540, is endowed with the living of Somersham, Hunts.

Bishop Kaye's Lectures.

In Lent Term, 1821, the present Regius Professor delivered a course of lectures on the writings of the Fathers, the principal object of which was to direct the attention of the theological student to the account given by the Fathers of the doctrines and opinions of the ages in which they lived, with a particular view to the illustration of the Articles of the Church of England. The Professor took the writings of the Fathers in the order in which Lardner has placed them, and concluded with Irenæus.

1 The celebrated Critic.
2 Author of the Academic, and Lord Bishop of Lincoln.
3 Author of a System of Nat. Philosophy, and Institutes of Nat. Law.

REGIUS PROFESSOR OF CIVIL LAW.

The Professor is appointed by the King, to continue in office *durante bene placito.* Founded by Henry VIII. 1540. Salary £40. per annum.

Professor Geldart's Lectures.

The King's Professor of Civil Law delivers his Course of Lectures at Trinity hall, in three successive Terms, beginning at the middle of the Michaelmas Term, and ending at the division of the Midsummer Term. The lectures are read in the combination-room, and the usual hour is from ten to eleven in the morning. The terms of attendance are five guineas for the first course, afterwards *gratis.* By a *senatus-consultum* in 1768, it was enacted, that no person should be admitted to the degree of LL. B. without producing to the Caput a certificate of his having attended the lectures in Civil Law for three terms.—The * plan of these lectures may be seen in a work, of which the fourth edition was printed at Cambridge in 1795, entitled *An Analysis of the Roman Civil Law,* in which a comparison is occasionally made between the Roman Laws and those of England, by Samuel Hallifax, late Lord Bishop of St. Asaph, and formerly the King's Professor of Civil Law in this university.

Dr. Geldart upon his appointment instituted an examination in the subjects of his lectures, and all persons who have been candidates for the degree of B. C. L. have been examined previously to the performing of the public exercise in the schools.

The following is the order of the † classes for the year commencing on the 10th of October 1819, ending on the 7th of July 1820:

* A Syllabus of each public lecture may be had at Deightons', booksellers, to whom the names of the attendants at the different lectures are to be delivered.

† The classes from 1815 are inserted in the former Calendars.

This office may be held by the Professor during his natural life. Founded by Henry VIII. 1540. Salary £40. per annum. The appointment by the King.

Dr. Haviland's Lectures.

The present Professor has instituted a Course of Lectures on general Pathology, and on the history and treatment of diseases; the object of which is to prepare and instruct those, who are about to enter on the study of Physic, in the principles of the science: and more particularly to direct their studies to the attainment of a knowledge of the phenomena of disease, and of the means of preventing and controlling it.

The course commences immediately after the division of the Lent term, and continues during the remainder of that, and the first half of the Easter term.

By a *senatusconsultum* of 1820, it was enacted, that no person should be admitted to the degree of M.B. without having first produced to the Caput a certificate, in the hand-writing of the Professor, of a constant attendance on these lectures for two terms.

Dr. Haviland has also established an examination of the candidates for the degree of Bachelor of Physic. Besides the subjects of his lectures, this examination embraces the sciences of Anatomy, Physiology, and Pharmacy.

*LADY MARGARET'S PROFESSOR OF DIVINITY.

An election to this Professorship, founded 1502, is to be every *two* years. The Professor is to be chosen

1 Editor of Euripides, &c.

* Lady Margaret (Mother to Henry VII.) the foundress, 1504, established a preachership value £10. per annum, at present held by Professor Calvert; which, according to the Grant, is to be retained for only three years, but that practice is now dispensed with, and the preacher continues without a fresh election. When a vacancy does occur, an election must take place within fourteen days. The electors are, the Chancellor or Vice-Chancellor, and the Masters of Colleges. In case of an equality of votes, the Vice-Chancellor decides. The election is in St. Mary's Church. They are now required, by their office, to preach a Latin sermon, or Concio ad Clerum, before the University, the day preceding Easter Term.

the last day of Midsummer Term, and his two years are to commence from the next following feast of the Nativity of the Virgin Mary. When the Lectureship becomes vacant, the same person may be re-elected, but this ceremony is generally dispensed with, and the Professor continues in his office as before. When, however, an election does occur, the electors are, the Chancellor or Vice-Chancellor, Doctors, Inceptors, and Bachelors in Divinity, who have been Regents of Arts. Lady Margaret's stipend was 20 marks per annum. Augmented by James I. with the rectorial tithes of Terrington, Norfolk.

EXPERIMENTAL PHILOSOPHY.

The candidates may be bachelors, married men, Englishmen (*Nostrates*) or Foreigners. The election is not to be before the thirtieth nor protracted beyond the sixtieth day after the schedule is affixed. The electors are, the Vice-Chancellor, the Masters of Trinity, Christ's, and Caius, and the Lucasian Professor. If any of the Masters be Vice-Chancellor, the Master of St. John's acts in his stead. Founded by Dr. Plume, 1704. Salary £250. per ann.

Professor Vince's Lectures.

The lectures are experimental, comprising *mechanics*, *hydrostatics*, *optics*, *astronomy*, *magnetism*, *electricity*, and *galvanism*; and are adapted to the plan of reading usually followed by the tutors in the university. All the fundamental propositions in the first four branches are proved by experiments, and accompanied with such explanations as may be useful to the theoretical student. Various machines and philosophical instruments are exhibited in the course of the lectures, and their construction and use explained; and in the three latter branches, a set of experiments are instituted to shew all the various phænomena, and such as tend to illustrate the different theories which have been invented to account for them. These

lectures are always given in the first half of the Midsummer term, at 4 o'clock in the afternoon, in the Lecture Room under the front of the Public Library. Terms are three guineas for the first course, two for the second, and afterwards *gratis*.

Founded by the university, 1707; £100. per annum.

Professor Clark's Lectures.

In these lectures the different parts and organs of the human body are described and exhibited, and various specimens are shewn, illustrating their healthy structure, and the alterations produced by disease, with a view to the explanation of the principles of physiology and pathology.

These lectures are intended not only to serve as the basis of a medical education, but also to convey such information as may be interesting to the general student, and useful in the whole conduct of life. They are given between the hours of twelve and one, in the Anatomical Schools, opposite Queen's college.

The terms of attendance are, for the first course three guineas, for the second course two guineas, and afterwards *gratis*.

In addition to a small collection of anatomical preparations which had been presented by Mr. Lawrence, the university has purchased the Museum of the late

BOTANY.

The election, &c. the same as for a Professor of Anatomy. Founded by the university, 1724; £200. per annum.

1 The celebrated Poet.

Professor Martyn's Lectures.

The principal intention of these lectures was to explain the elements of Botany, and to elucidate the system of Linnæus. The doctrine of the sexes in plants, being the foundation of the Linnæan system, was proved. The theory of vegetation and other matters relative to the physiology of plants were detailed: and finally, the more curious and useful species were selected and exhibited.

GEOLOGY.

This Professorship was founded by Dr. Woodward in the year 1727. None but unmarried men are eligible to the appointment. On January 31, 1731–2, the four executors of the founder's will appointed Dr. Conyers Middleton the first Professor. After their decease the election was vested in the members of the senate; in addition to whom the following persons were allowed to give their votes by proxy, *viz.* the Chancellor of the university, the Archbishop of Canterbury, the Bishop of Ely, the President of the Royal Society, the President of the College of Physicians, and the Members for the university. The original collection in the Cambridge Museum consisted exclusively of those specimens described in Dr. Woodward's catalogues, which were printed in 1729. The English fossils, native and extraneous, were bequeathed by him to the university: and by a grace of the senate, dated Feb. 26, 1728–9, the Vice-Chancellor was empowered to purchase of his heirs, for a sum not exceeding £1,000. the foreign fossils described in the above-mentioned catalogues. This purchase was carried into immediate effect. The whole collection is well preserved, and remains nearly in the same order in

2 Editor of Miller's Gardener's Dictionary

which the Doctor disposed it. Two graduates of the university are annually appointed to inspect its condition, and their report is delivered on the 1st of May to the Heads of Houses, who form a board of auditors for that purpose.

Unfortunately for the university, this noble monument of the talents and unwearied labours of Dr. Woodward was placed in a room ill fitted for its reception. Nearly a century has passed away, and it is still allowed to remain in a place where a public lecture cannot be given, and where even the specimens which formed the original collection cannot be exhibited to advantage.

Among the native fossils which have had a place in this collection more than one hundred years, the mineralogist will find the Corundum, Apatite, Native Meteoric Iron, and the fossil Copal of Highgate. The extraneous fossils of the same cabinets, also prove that many discoveries of succeeding naturalists have been in like manner anticipated.

Professor Green added some valuable organic remains to the Woodwardian cabinets. But Professor Hailstone, after his appointment, formed another distinct collection; which is now composed of many rare and beautiful simple minerals, and of specimens illustrative of the physical structure both of the British isles and of some portions of the Continent. In this labour he was assisted by the munificence of various friends of the university.

To this part of the collection the present Professor has, by the active assistance of some of his friends, been enabled to make large and important additions. He has also established a course of lectures, in which it is his endeavour—1st. To explain the structure of the earth, and the mineral characters of some of the older rocks: 2dly. To determine the order of superposition among the newer deposits, more especially in the British Isles: and 3dly. To examine those theories by which naturalists have endeavoured to account for the appearances presented by the surface of the earth. Before this part of his task can be effectually performed, it will be necessary to make many large

additions to the Geological cabinets. The zealous co-operation of many scientific members of the university gives the Professor confident hopes that these additions will not long be wanting. Should, however, a series of specimens be brought together from the different strata of this island, the present Museum, already crowded to excess, would be absolutely incapable of containing them. Under these circumstances, the members of the senate are called upon no longer to delay the erection of a Museum, in which the present cabinets may be advantageously exhibited, all future additions systematically arranged, and to which the students of the university may at all times have access. Should such a building be erected, the Professor feels assured that the university would before long be indebted to its members for a collection which would at once contribute to the usefulness and splendor of our establishment.

DIVINITY.

(Mr. Norris's.)

The Stewards of this institution are, the Master of Trinity, the Provost of King's, and the Master or President of Caius. The candidates for the Professorship give a written notice to the three Stewards within the first fourteen days of November. The Stewards select two, and signify their names to the Heads of Houses on or before the 1st day of February next ensuing, and the election of one of the two nominated must be within the first fourteen days of the succeeding May. The electors must be a majority of ten Heads of Houses. The Professor may have been educated at either university, may be lay or clerical, but cannot be elected under his thirtieth, or re-elected after his sixtieth year. No person can continue in office longer than five years, but may be re-elected.—Founded by John Norris, Esq. 1768. Salary, £100. per annum.*

Professor Calvert's Lectures.

The Norrisian Professor of Divinity delivers his lectures during the Michaelmas and Lent terms, at the Lecture Room under the front of the Public Library. All candidates for orders are required to attend twenty-five of these lectures at least, before they can possibly obtain a certificate from the Professor.—These lectures are delivered three days in a week, and during the course, the Professor, by the will of the founder, is obliged to read Bishop Pearson's Exposition of the Creed. When that is omitted, his lectures are confined more particularly to the Evidences of Christianity. The hour of attendance is from

NATURAL AND EXPERIMENTAL PHILOSOPHY.

This Professor is to be chosen by those Regent Masters of Arts only who have been resident here for the greater part of the year previous to the day of election (excepting only such Masters of Arts as are under one year's standing, who may vote though they have not been resident for that term;) which said Regent Masters, on notice assigned by the Master, Fellows and Scholars of Trinity college, shall assemble on a day, and choose, within one month after such notice is received, by a majority of votes given in writing under the hand of each voter, and taken by the Proctors, such a person as appears best qualified in Natural and Experimental Philosophy and Chemistry. A member of Trinity college is to be preferred *(cæteris paribus,)* next a Staffordshire, Warwickshire, Derbyshire, or Cheshire man. In case of disputes about the majority of the electors, the same is to be determined by the Vice-Chancellor, the Provost of King's, the Master of Trinity, or if either of the two latter be Vice-Chancellor, the Master of St. John's. Founded by the Rev. Richard Jackson, 1783. Salary £160. per annum.

Professor Farish's Lectures.

These lectures embrace a great variety of subjects. In the original arrangement of them, the Professor conceived that the application of the principles of Natural Philosophy, Natural History, Chemistry, &c. to the arts, manufactures, and agriculture of Britain, presented a new and useful field of instruction:—After having taken an *actual survey* of almost every thing curious in the kingdom on such subjects, he

contrived a mode of exhibiting the operations and processes that are in use in nearly all of them. Having provided himself with a number of brass wheels of all forms and sizes, such that any two of them can work with each other; and also with a variety of axles, bars, screws, clamps, &c. he constructs at pleasure, with the addition of the peculiar parts, working models of almost every kind of machine. These he puts in motion by a water-wheel or a steam-engine, in such a way, as to make them in general do the actual work of the real machines, on a small scale; and he explains at the same time the chemical and philosophical principles, on which the various processes of the arts exhibited, depend.

In the course of his lectures he explains the natural history of minerals, the theory and practice of mining, and of smelting metallic ores—of bringing them to nature—of converting, purifying, compounding, and separating the metals, and the numerous and various manufactures which depend upon them, as well as the arts which are more remotely connected with them, such as etching and engraving. He exhibits the method of obtaining coal and other minerals—the processes by which sulphur, alum, common salt, acids, alcalies, nitre, and other chemical substances, are obtained, and in which they are used—the mechanical process in the formation of gunpowder, as well as its theory and effects. He treats on the agriculture of the country, and shews the arts of procuring and working animal and vegetable substances; the great staple manufactures of the country, in wool, cotton, linen, silk, together with the various chemical arts of bleaching, of preparing cloth, of printing it, of using adjective and substantive colours, and mordants and intermediates in dying, and the processes by which various products are obtained from vegetable and animal substances. He explains in general the nature of machinery—the moving powers, such as water-wheels, windmills, and particularly the *agency* of steam, which is the *great* cause of the modern improvement and extension of manufactures. He treats likewise on subjects which relate to the carrying on, or facilitating

the commerce of the country, such as inland navigation, the construction of bridges, aqueducts, locks, inclined planes, and other contrivances, by which vessels are raised or lowered from one level to another—of ships, docks, harbours, and naval architecture. On the whole, it is the great design of these lectures to excite the attention of persons already acquainted with the principles of mathematics, philosophy, natural history, and chemistry, to the advancement of useful arts, and by drawing their minds to the consideration of the most important discoveries of ingenious men, in all parts of the kingdom, to enlarge their sphere of amusement and instruction, and to promote the improvement and progress of the arts.

These lectures are given in the Schools in the Botanic Garden. The terms of attendance are, three guineas for the first course, two guineas for the second, afterwards *gratis*.

DOWNING PROFESSOR OF THE LAWS OF ENGLAND.

The Professor is elected by the Archbishops of Canterbury and York, and the Masters of St. John's and Clare hall. Founded by Sir George Downing, 1800. Salary £200.

Professor Christian's Lectures.

The Downing Professor of the Laws of England reads every year, after the division of the Michaelmas or Lent Terms, in a room at St. John's college, between the hours of twelve and one at noon, a course of lectures, consisting of twenty-four or twenty-five, upon the constitution and laws of England; at which lectures several important subjects, not specified in the syllabus, are occasionally introduced. The terms

of attendance are, three guineas for the first course, and two guineas for the second.

Two gentlemen of any description, recommended by the Master or Tutors of each college, and all who have attended two courses, are admitted gratis.

MINERALOGY.

This Professorship was founded by the university, in the year 1808, and afterwards endowed by Government with a salary of £100. per annum.

Professor Clarke's Lectures.

These lectures were given for two years prior to the establishment of the Professorship, and specimens exhibited which had been collected by the Professor during his travels. He published a syllabus, in which besides the different topics discussed in the course of the lectures, a methodical distribution of the mineral kingdom was offered to students upon a plan less liable to objection than those which had hitherto appeared. The principal object of the Professor was, to call the attention of the university to the importance of mineralogical studies, as affecting the interests of the empire; to illustrate the natural history of the materials used by Architects, Sculptors, and Lapidaries, in the remotest periods, and in modern times;

the mineralogy of the Sacred Scriptures, and of the ancient Poets and Historians; and finally, to suggest the means of pursuing this branch of knowledge without the expence and incumbrance which have usually been its attendants.

Soon after these lectures commenced, the Regius Professor of Botany, by permission of the Vice-Chancellor, ceded his room in the Botanic Garden, to accommodate Dr. Clarke with a place for his minerals. The lectures have been since given in that apartment, during the Lent and Midsummer terms, and the collection is at all times open to the public.

Noblemen and Fellow-Commoners may attend upon the usual terms of other public lectures; but all Senior Sophs, Bachelors, Masters of Arts, and all Private Tutors have a free admission. Heads of Houses have also privileges of appointment for gratuitous admission to the lectures, from the class of Junior Students.

BARNABY LECTURERS.

These annual Lecturers are so called from being chosen on St. Barnabas' day. The Mathematical Lecture was founded at a very early period by the university, and the other three were endowed in 1524, by Sir Robert Rede, Lord Chief Justice of the Common Pleas in the reign of King Henry VIII. The mode of election is thus:—On the eleventh of June, a congregation is called for the election of these Lecturers. The senate being assembled, the Vice-Chancellor takes the chair, and a Bedell calls up the Houses. The Vice-Chancellor and the two Proctors stand in scrutiny, the senior of whom declares the election. —The Mathematical Lecturer is paid by the Vice-Chancellor £4. the other three by the Bursar of Jesus college £3. 4*s.* each.

SADLERIAN LECTURERS.

The following sixteen Algebra Lectureships were founded by Lady Sadler, and the lectures commenced in 1710. The Lecturers, who are required to be Bachelors of Arts at least, are appointed and chosen by the Heads, who are the Trustees, and by the Vice-Chancellor for the time being, from all the colleges.— The stipend of the Lecturers is £30. per annum each, Emmanuel excepted, which is £45. Every Lecturer produces a certificate, signed by the Master of his college, testifying that the lectures have been by him regularly given, before payment of the salary, which is half-yearly, at Emmanuel Lodge. The Lectureships are tenable for only ten years, and no one can at any

time be elected, unless previously examined and approved by the Mathematical Professor.

Mr. HULSE's FOUNDATIONS.

The Rev. John Hulse was educated at St. John's college, Cambridge, became Bachelor of Arts in 1728, and died in 1789, bequeathing his estates in Cheshire to this university, for the advancement and reward of religious learning. The various purposes to which he appropriated the revenue of these estates, are—first, the maintenance of two scholars at St. John's college—secondly, to recompence the exertions of the Hulsean Prizeman—thirdly, to found and support the office of Chrisian Advocate—and fourthly, that of the Hulsean Lecturer, or Christian Preacher. The salaries of these offices vary according to the annual rent of Mr. Hulse's estates, different proportions of which are set apart for each, the largest belonging to the Lecturer. After the death of the principal legatee, the emolument will be considerable.

The trustees and electors of Mr. Hulse's bequests are, the Vice-Chancellor for the time being, the Master of Trinity college, and the Master of St. John's college. If the Master of Trinity be Vice-Chancellor, the Greek Professor supplies his place. The Bishop of Ely is visitor, with power to determine in reason and equity, in all disputes.

CHRISTIAN ADVOCATE.

Extract from the Will, dated July 21, 1777.

The person to be elected into such office (on Christmas-day, or within seven days after, for a term not exceeding five or six years) to be a learned and ingenious person of the degree of Master of Arts, or of Bachelor or Doctor of Divinity, of the age of 30 years, and resident in the university; who is to compose yearly, whilst in office, some proper and judicious answer or answers every year, to all such new and popular, or other cavils and objections, against the Christian or revealed religion, or against the religion of nature, as may, in the opinion of the trustees, or any two of them, seem best or most proper to deserve or require an answer, whether the same be ancient or modern objections, but chiefly such as are most modern, and especially such as have appeared in the English language of late years against Christianity, and which may not seem to have received a full and sufficient answer, if any such there shall be unto the year preceding his election; as likewise to be ready to satisfy any real scruples or objections in a private way, that may be brought from time to time by any fair and candid enquirer against the same; such writer to be called the Christian Advocate, and such his written answers to be in English, and only against notorious infidels, whether atheists or deists, not descending to any particular controversies or sects amongst Christians themselves, except some new or dangerous error, either of superstition or enthusiasm, as of popery or methodism, either in opinion or practice, shall prevail; in which case only it may be necessary for that time to write or to reason against the same; and such treatise or treatises to be every year printed, the expence whereof shall be deducted out of the temporary stipend or salary; and the remainder of the said stipend or salary, or rents and profits, shall be paid or given every year to the several authors successively as a reward for the same; but if the person chosen into the said office shall neglect or

not discharge his office as he ought to do, he is to forfeit and lose his salary for that year, which is, in such case, to be equally divided between the six senior Fellows of St. John's college.

1803 William Cockburn, M.A. Joh.
1810 Edward Pearson, D.D. Sid.
1811 George D'Oyly, B.D. Bene't.
1816 Thomas Rennell, M.A. King's.

HULSEAN LECTURER or CHRISTIAN PREACHER.

Salary, at present, about £170. per ann.

The election to this office is to take place on Christmas-day, or within eight days after. The persons eligible are, Masters of Arts of the university of Cambridge under forty years of age. The office is only annual, but the same individual may, under certain circumstances, be re-elected for any successive number of years, not exceeding six. The duty of the Lecturer is to preach and *print* twenty sermons in each year, ten in April, May, and the former part of June, and ten in September, October, and the former part of November. The subject of the discourses is—to shew the evidence for revealed religion, or to explain some of the most difficult texts or obscure parts of Holy Scripture,—or both. The time and place of delivery are to be in Great St. Mary's church, and either on the Friday mornings or the Sunday afternoons of each week in the above-mentioned period; and if the duties be not discharged by the person appointed, his salary is divided amongst the six Senior Fellows of St. John's college.* The Preacher is not afterwards eligible to the office of Christian Advocate.

Various circumstances prevented any appointment taking place until the year 1820, when the first election was made.

1820 Christopher Benson, M.A. Trin.†

* For a fuller account of the Duties, &c. of the Hulsean Lecturer, see "Hulsean Lectures for 1820," Discourse 2d, and the Appendix.

† In consequence of Mr. Benson's ill state of health, he was allowed a Deputy in 1821, and James Clarke Franks, M.A. Trin. was appointed.

LECTURES ON POLITICAL ECONOMY.

The lectures on this science were commenced in 1816, with the concurrence of the Vice-Chancellor, by George Pryme, Esq. M.A. late Fellow of Trinity college.

They attempt to analyse the original and efficient causes of national prosperity—to shew by what measures of the legislature, and by what conduct of individuals in private life, it is augmented or diminished—and to assist the reader of history, in explaining the phænomena of the strength or weakness, the rise or fall, of states.

They are of an elementary and popular nature, requiring no previous knowledge of the subject. They are intended to facilitate the study of a science, hitherto inaccessible without the most arduous perseverance; to simplify the order, explain the obscurities, and point out the errors of A. Smith's Inquiry into the Wealth of Nations; to combine with his discoveries what the experience of subsequent events, and the researches of subsequent authors, have taught; and to place some part of the subject in a point of view different from what any writer has done. Their plan is—1st. To trace the history of national wealth from the rudest to the richest state of society, and to examine each change as it naturally arises in the progress of opulence and civilization; 2dly. Briefly to explain the systems of the ancients, of Dr. Paley, of the French economists, and what is called the commercial system; and 3dly. To explain the principles of taxation and finance.

They are given every Monday, Tuesday, Thursday, and Saturday, at 12 o'clock, during the Lent and Easter terms, on the usual plan of attendance on public lectures.

TRAVELLING BACHELORS.

William Worts, M.A. of Caius college, formerly one of the Esquire Bedells of this university, gave two pensions of £100. per annum each, to two junior Bachelors of Arts, *nominated by the Master of the college whose turn it is to present, and elected by the senate, at which election the Vice-Chancellor and the Proctors stand in scrutiny, the senior of whom, after reading the votes, declares the election. The Bachelors are required to visit foreign countries, to take different routes, and to write during their travels two Latin letters each, descriptive of the customs, curiosities, &c. &c. which letters, as soon as received by the Vice-Chancellor, are laid before the senate, and afterwards deposited in the Public Library.

The income of these travellers is continued for the space of three years, the period they are obliged to be absent.

ANNUAL PRIZES.

CLASSICAL.

CHANCELLOR's MEDALLISTS.

Two gold medals, value 15 guineas each, are given annually by the Chancellor of the university, to two commencing *Bachelors of Arts, who, having obtained Senior Optimes at least, acquit themselves the best in classical learning. The successful candidates declaim on the second Tripos Day, upon a subject appointed by the Vice-Chancellor. H. the Duke of Gloucester, the present Chancellor, has given a third gold medal, to be conferred annually upon a resident undergraduate, who shall compose, in English, the best ode or best poem in heroic verse. The subject to be given out on the 25th of October, and the exercises to be delivered to the Vice-Chancellor on or before the 26th of March following. Each candidate is to send his exercise privately, and without his name, and not written in his own hand, but revised and pointed by himself, with some Latin verse written upon it; and he is at the same time to send his own name in a paper folded up and sealed, with the same Latin verse on the outside. The papers containing the names of those persons who do not succeed are destroyed unopened. —The examiners appointed by his Royal Highness to determine all these prizes are, the Vice-Chancellor, the Provost of King's, the Masters of Trinity, St. John's, Peterhouse, Clare hall, and Christ's, the senior resident Fellow of Trinity who has gained a medal,* the Public Orator, the Greek Professor, and the Professor of Modern History.

MEMBERS' PRIZE-MEN.

The Representatives in Parliament of this university give four annual prizes of fifteen guineas each, which are adjudged by the Vice-Chancellor and Heads of colleges, to two senior and two middle Bachelors of Arts, who shall compose the best Dissertations in Latin prose, which are read publicly by them on a day appointed near to the Commencement, and afterwards sent by them to the aforesaid Members. The subjects are delivered out in March or April, and each candidate is to send his exercise privately, without his name, and (if he chooses) transcribed by another person, but revised and pointed by himself, to the Vice-Chancellor, on or previous to the 1st of June, with some Latin verse written upon it; and he is at the same time to send a paper sealed up, with the same Latin verse on the outside, which paper shall inclose another paper, folded up, with the candidate's name written within. The papers containing the names of those candidates who do not succeed are destroyed unopened. These

prizes were established by the Hon. Mr. Finch and the Hon. Mr. Townshend, and have been continued by the succeeding Members.

SIR WM. BROWNE'S MEDALLISTS.

Sir William Browne, Knt. directed three gold medals, value five guineas each, to be given yearly to three undergraduates on the Commencement day, when the exercises are publicly read, and copies of them sent by the successful candidate to Sir Martin Folkes. The first to him who writes the best Greek Ode in imitation of Sappho; the second for the best Latin Ode in imitation of Horace; the third for the best Greek and Latin Epigrams, the former after the manner of the Anthologia, the latter after the model of Martial. The subjects (delivered out usually in January) are appointed by the Vice-Chancellor, the sole adjudicator of these prizes. The exercises must be sent in on or before the 20th of May, in the same manner as the exercises for the Members' prizes.

PORSON PRIZE.

The Rev. Charles Burney, D.D. and the Rev. John Cleaver Banks, M.A. only surviving trustees of a fund raised by the friends of the late Professor Porson, and appropriated to his use during his life time, after various dispositions of part of the said fund, did, by deed bearing date the 27th November 1816, transfer to the university the sum of £400. Navy 5 per cents. upon trust, that the interest arising therefrom shall be annually employed in the purchase of one or more Greek books, to be given to an undergraduate yearly, at the Commencement, as a prize for Greek Verses, by the name of the Porson University Prize.

The Verses to be a translation of a passage or passages in some play of Shakespeare, Ben Jonson, Massinger, or Beaumont and Fletcher, selected by the Vice-Chancellor or his deputy, and announced or published a reasonable time before the Commencement. The metre of the translation, if the selection be from a tragedy, shall be *Tragicum Iambicum Trimetrum Acatalecticum*, or *Tragicum Trochaicum Tetrametrum Catalecticum;* if the selection be from a comedy, the metre

of the translation shall be *Comicum Iambicum Trimetrum Acalecticum*, or *Comicum Trochaicum Catalecticum*. The plan adopted in the case of Sir Wm. Browne's Prizes to be followed as far as relates to ascertaining the author of the prize, without disclosure of the names of the other candidates. The exercises must be distinctly written and accentuated, and accompanied by a literal Latin prose version of the Greek. The examiners appointed are, the Vice-Chancellor or his deputy, the Provost of King's, the Masters of Trinity, St. John's, Christ, and Caius colleges, the Greek Professor, and Public Orator; the Vice-Chancellor or his deputy to have a casting vote if necessary. The prize translation is to be printed at the expence of the author, and copies to be given to the Vice-Chancellor and Heads of Houses, previous to the Commencement, at which time it is to be recited in the Senate-House. And if in any year there be no translation worthy of the prize, the book or books provided for that year shall be reserved and given to the candidate who shall be considered second best in the subsequent year, and so from time to time the book or books provided in any year and not given in that year as a prize, shall be reserved till the examiners shall adjudge the same to be given in some subsequent year to a candidate whose translation is second best, or third best to the prize translation, but worthy to be rewarded, and then shall be disposed of accordingly; provided also that they be printed and recited as in the case of the prize translation. All the prize translations, and every such second best or third best translations, shall be transcribed in a book to be kept by the Vice-Chancellor.

HULSE'S PRIZE-MEN.

The Rev. John Hulse, formerly member of St. John's college, bequeathed to the university certain estates for the advancement of religious learning, and directed in his will that out of the rents and profits, an annual premium of £40. should be given to any member of this university, under the degree or standing of M.A. who composed the best Dissertation in the English language, on the evidences in general, or on the prophecies or miracles in particular, or on any other particular argument, whether the same be direct or collateral proofs of the Christian religion, in order to evince its truth and excellence.

The subject is delivered out on Christmas-day, or New-Year's-day, and the Dissertations are to be sent to the Vice-Chancellor, or the Masters of Trinity and St. John's, who are trustees, on or before the 1st of the ensuing November, with the names of the respective authors sealed up.

The writer of the Dissertation best approved is to print it at his own expence, and not to offer himself a second time as candidate for the premium.

POETICAL.*

SEATONIAN PRIZE.

Mr. Seaton bequeathed to the university the rents of his Kislingbury estate, now producing clear £40. per annum, to be given yearly to that Master of Arts who shall write the best English Poem on a sacred subject. The Vice-Chancellor, the Master of Clare hall, and the Greek Professor (who are the disposers of this premium) determine the subject, which is delivered out usually in March, and the poem to be sent to the Vice-Chancellor on or before the 10th of October following. The poem is to be printed, and the expense deducted out of the product of the estate; the remainder is given as a reward to the composer. The prize is determined a few days previous to the resignation of the Vice-Chancellor's office.

University Scholarships.

CRAVEN'S SCHOLARS.

Lord Craven founded two Classical Scholarships of £25. per annum each, arising from estates vested in the hands of six trustees. The Cambridge trustees are, the Bishop of Peterborough, the Bishop of Bath and Wells, and the Master of Trinity college. Electors, the Vice-Chancellor, the five Regii Professors, and the Public Orator. Whenever a vacancy occurs, any undergraduate may offer himself as a candidate, by signifying his intention in a Latin letter addressed to the above examiners, within the time limited by the Programma which declares the vacancy. If any one of the name or kindred of the founder should be in indigent circumstances, and a scholar of this university, he (by the will) is to be preferred. This annuity cannot be enjoyed after fourteen years standing in the university, nor by any one who may attain to preferment of double its value. The possessors are not allowed to be absent from the university above three months in the year, without the express permission of the Vice-Chancellor, or the major part of the electors then resident in the university.

These rules have been modified in part by the regulations enacted in 1817; which will be found at the end of this list of University Scholarships.

By a late decree of the Court of Chancery, the income of the scholars has been augmented to £50. per annum each, and three additional Craven Scholarships founded, under the same regulations as the preceding, except that they cannot be held for more than seven years.

BATTIE'S SCHOLARS.

William Battie, M.D. of King's college, left an estate, present value £18. per ann. on a plan similar to the preceding, but subject to the following conditions:—1st. Every Scholar shall reside nine calendar months in the year, except he be a graduate in Physic, or one who designs to profess the same; in that case his residence may be dispensed with at the university, provided he produces once every year a certificate signed by one Hospital Physician in London, testifying his regular conduct and diligent attendance with the said Physician at the Hospital. 2d. No Scholar is capable of being elected who has been admitted three years, or receives any benefit or advantage from either of Lord Craven's exhibitions; and if any one, after being admitted to this Scholarship, shall become entitled to any emoluments from the said exhibitions, his claim to this benefaction is void. 3d. When any Scholar shall have entered nine years at the college to which he first belonged, or shall have obtained any ecclesiastical benefice or preferment, excepting he is a Fellow of some one college, his right to this legacy

[1] Head Master of Eton.

shall then cease and determine. The electors to this Scholarship are, the Vice-Chancellor, the Provost of King's, the Regii Professors of Law, Physic, and Divinity, and the Proctors for the time being.

BROWNE'S SCHOLARS.

Sir William Browne, Knt. M.D. left a perpetual rent charge of £21. per annum, upon sundry estates, for founding a Scholarship, to be paid clear of taxes and disbursements, to the Chancellor, Masters, and Scholars of the university. A candidate for this Scholarship must offer himself for examination within a year from his matriculation; public notice being given by the Vice-Chancellor a month before such election. The Scholarship, with all the arrears which may happen by vacancy, is tenable for seven years; but the possessor, if of another college, is obliged to remove to Peterhouse, and reside there every entire term during his undergraduateship. Electors to this Scholarship the same as to Lord Craven's.

DAVIES'S SCHOLARSHIP.

The Rev. J. Davies, D.D. formerly Fellow of King's and afterwards Provost of Eton college, bequeathed (by will dated July 1804) to the Vice-Chancellor for the time being, and the Provost of King's, in the university of Cambridge, in trust, the sum of £1,000. in the 3 per cents. to found a Scholarship, to be called Dr. Davies's University Scholarship, on the same footing as those called Craven's Scholars, for the greatest proficient in classical learning. The examiners to be the same, only with the addition of the Provost of King's; and to be tenable for the same number of years as the above-mentioned Scholarship.

BELL'S SCHOLARSHIPS.

The Rev. William Bell, D.D. Prebendary of the collegiate church of Westminster, and late of Magdalene college in this university, in the year 1810, transferred £15,200. stock, 3 per cents. to the university of Cambridge, in trust, to found eight new Scholarships, for the sons of clergymen of the Church of England. On the receipt of this benefaction, Scholars were elected in such a manner and for such a period that two Scholarships will become vacant every year.

The regulations of these Scholarships are, that every Scholar elected on this foundation shall promise in writing to take the degree of B.A. in the most regular way. Where personal merits are equal, those are to be preferred who stand most in need of assistance. If any Scholar shall degrade or determine, and go out in a bye-term, or declare for law, or be rusticated or expelled, his Scholarship shall be *ipso facto* vacant. The profits to continue for four years, and no more. No persons shall ever have two sons

Scholars, nor shall there be two orphans, brothers, Scholars at the same time. If no sons or orphans of clergymen shall be found properly qualified for these Scholarships, then, and then only, the electors shall elect sons of laymen, being undergraduates, who stand in need of assistance. No Scholar to be elected from King's college or from Trinity hall.

The electors are, the Vice-Chancellor, the Regius Professor of Divinity, the Regius Professor of Civil Law, the Lucasian Professor of Mathematics, and the Public Orator.

PITT SCHOLARSHIP.

Rules for the Foundation of the Pitt Scholarship, and for the Election of a Scholar, as proposed by the Syndics appointed by the university for that purpose, and confirmed by the Senate, Dec. 9, 1813.

1.—The sum of £1,000. given by the subscribers to Mr. Pitt's Statue, for the purpose of founding the Pitt

Scholarship, and which has since been augmented by a donation of £500. from the Pitt Club in London, shall be placed in the public funds, until the Syndics shall be able to vest it in land; and the clear annual income arising from it shall be paid to the Pitt Scholar.

2.—The Vice-Chancellor or his deputy, the Public Orator, the Greek Professor, and two members of the senate, to be appointed by the different colleges in their turns, shall be the electors. Two colleges, according to the cycle of Proctors commencing with the year 1817, shall respectively nominate an elector. But if the Vice-Chancellor, the Public Orator, and the Greek Professor, or any two of them, be members of the same college, no elector in that case shall be appointed by that college according to the cycle of Proctors, but the appointment shall be made by the university. Or if the Public Orator or the Greek Professor shall be prevented by illness or otherwise from attending the examination, or if the colleges shall have neglected to signify to the Vice-Chancellor the appointment of the electors according to their respective turns, then deputies shall be appointed by grace.

3.—The first examination commenced on Monday, January 17, 1814; and the Vice-Chancellor or his deputy, the Public Orator, and the Greek Professor, shall, in future, on or before the 1st day of December after every vacancy, cause a writing, under their hands, declaring the said vacancy and the time of examination, to be affixed to the door of the Public Schools; and they shall notify the same to the two colleges which are to nominate the electors, and the Heads of those colleges, or their deputies, shall, within one week after such notices, signify to the Vice-Chancellor the names of the electors so appointed.

4.—The examination, which shall be solely classical, shall always take place during the week of the public examinations in the Senate-House previous to the Bachelors' Commencement, and the Scholar elected shall receive all the dividends or rents that shall have become due subsequent to the last vacancy.

5.—Any undergraduate, of whatever rank, may be a candidate for the Pitt Scholarship, provided he be not of more than of three years standing from the time of his first residence; but he shall, on or before the 31st day of December preceding the examination, signify, in a Latin epistle to each of the electors, his intention of becoming a candidate, and in case he shall omit sending such an epistle, he shall be considered as incapable of being elected at that time.

6.—The Pitt Scholar shall not hold any other University Scholarship.

7.—Every Scholar shall, during the time of his holding this Scholarship, reside the major part of each term; and if he shall not have kept such residence, he shall vacate his Scholarship, unless he has been prevented by illness or any other cause which shall be approved of by the Vice-Chancellor, the Public Orator, and the Greek Professor.

8.—Every Scholar who shall obtain any ecclesiastical benefice or preferment, or shall be of Master of Arts standing, shall vacate his Scholarship.

TYRWHITT'S HEBREW SCHOLARSHIPS.

The Rev. Robert Tyrwhitt, M.A. late Fellow of Jesus college, who died in 1817, by his will bequeathed £4000. Navy 5 per cents. for the promotion and encouragement of Hebrew learning, the mode and disposition of this bequest to be left to the university.

Decree of the Senate, 1818.

1.—That three Scholarships shall be founded, to be called Tyrwhitt's Hebrew Scholarships.

2.—That the candidates for these Scholarships shall be Bachelors of Arts, who are not of sufficient standing to be created Masters of Arts, and Students in Civil Law or Medicine of not less than four, or more

than seven years standing, who shall be required, before they are admitted to become candidates, to produce certificates from their respective Professors that they have kept the exercises necessary for the degree of Bachelors of Law or Physic.

3.—That four-fifths of the clear annual proceeds of the bequest shall be equally divided among the three Scholars.

4.—That the remaining fifth shall form a fund, to be employed from time to time, by the electors, in such manner as they shall deem most conducive to the promotion of Hebrew learning.

5.—That the electors to these Scholarships shall be the Vice-Chancellor, the Regius Professor of Hebrew, the Professor of Arabic, and two members of the senate, to be nominated by the different colleges, according to the cycle of Proctors.

6.—That if the Regius Professor of Hebrew, or the Professor of Arabic, or both of them, shall decline or be prevented from examining, a deputy or deputies shall be appointed by grace of the senate; excepting when the Lord Almoner's Reader in Arabic does not hold either of the above Professorships; in which case he shall be the deputy, if only one is required, or one of the deputies, if two are required.

7.—That if it shall happen at any time, that two of the offices severally constituting electors are united in one and the same person, the deputy for the elector in respect of one of the said offices shall, according to the circumstances stated in the foregoing resolution, be either the Lord Almoner's Reader in Arabic, or be appointed by grace of the senate; and if in any case the Lord Almoner's Reader in Arabic shall decline the office of deputy examiner, or shall be prevented from undertaking the said office, a deputy examiner shall be appointed in his place by grace of the senate.

8.—That if the Vice-Chancellor, the Regius Professor of Hebrew, the Professor of Arabic, or any two of them, shall be members of the same college, no elector shall in that case be appointed by that college according to the cycle of Proctors; but the appointment shall be made by grace of the senate.

9.—That the examination shall be primarily in the Hebrew Scriptures of the Old Testament; secondarily, in such other Hebrew Works and in such exercises, as the examiners shall judge most likely to assist and advance the knowledge of the Sacred Writings.

10.—That the first Scholar shall be elected in 1819; and the examination shall in that and every subsequent year, commence on the first Wednesday after the first of May.

11.—That a second Scholar shall be elected in 1820, and a third in 1821.

12.—That the Scholarship of the first-elected Scholar shall be deemed vacant on May 1, 1822; of the second on May 1, 1823; and so on; so that a Scholarship shall become vacant every year, and each Scholar shall hold his Scholarship for the space of three years, to be reckoned from the first of May preceding his election.

13.—That should any Scholar vacate his Scholarship by death, or resignation, or other cause, the electors shall, as soon as conveniently may be, elect another Scholar in his place, who shall enjoy the profits of his Scholarship so long as the vacating Scholar would have enjoyed them; but if the vacating Scholar shall have held his Scholarship for more than two years, the profits of the remaining year shall go to him or to his legal representative, and the examination of candidates to fill the vacancy shall not commence before the usual time.

14.—That the first and second-elected Scholars shall not during the first and second year receive a larger proportion of the proceeds of the bequest than they would have received on the supposition that all the Scholarships were then filled; and that in the mean time the unappropriated surplus of the four-fifths of the proceeds be invested, as it arises, in the same stock in which the benefaction now stands; to be applied to the general purposes of the bequest.

15.—That the accounts of this bequest shall be kept distinct from the general accounts of the university, and shall be annually audited by the electors at the election of the Scholars; and being so audited shall

be laid on the Registrary's table in the Senate-House, at the next congregation, for the inspection of the senate.

16.—That these resolutions shall be in force for six years commencing from June 1, 1819; when they shall be again submitted to the senate for revision and alteration, if necessary.

RESOLUTIONS OF THE SYNDICATE
RESPECTING
THE UNIVERSITY SCHOLARSHIPS.

[*Confirmed by a Grace of the Senate.*]

It appears clearly desirable to produce a regularity in the vacancies of the University Scholarships, and in the elections, so that one of the five may be vacant in each year, and not more; also that the elections may be about the same period in each year.

On examining the constitutions of the Craven, Battie, Davies, and Pitt Scholarships, it appears that the only one over which the university cannot assume a control with regard to the vacancies and the elections, is the Battie's Scholarship.

The Pitt Scholarship having been recently fixed by a Syndicate appointed for that purpose, the most proper plan appears to be, to assimilate the new regulations for the Craven and Davies's Scholarships, to those adopted for the Pitt Scholarship.

NEW REGULATIONS.

On the last Saturday in November in every year, there shall be a meeting at the Vice-Chancellor's of the electors to the Craven's and Davies's Scholarships, and of the *permanent* electors to the Pitt Scholarship, to consider whether any one and which of those Scholarships shall be then declared vacant; and the exa-

1 Professor in the Mission College, Calcutta.

mination for such vacant Scholarship shall commence in the last week of January following.

At this meeting, of the Scholarships which shall have become *voidable* by non-residence, that shall be declared *vacant* which has been held for the longest time; provided that no one Scholarship shall have become *necessarily* void before the day of this meeting, in which case no other shall be declared vacant for that year.

When it is decided at this meeting which of the Scholarships is to be declared vacant; the rules pointed out by the founder for notice, examination, and election (where any such rules are particularly prescribed by the founder) will be pursued, so as to bring on the examination in the last week of January. Where no such regulations have been prescribed by the founder, the notice of the vacancy is to be affixed to the door of the Public Schools, on or before the 1st of December; and the candidates are to deliver their Latin Epistles to each of the examiners, on or before the 31st of December, as in the case of the Pitt Scholarship; and all prior regulations made by the university, inconsistent with these, are hereby repealed.

With respect to non-residence, it is to be understood that the holders of the Craven, Davies, and Pitt Scholarships shall, generally speaking, have such leave of absence, as will enable them to retain their Scholarships until the holder becomes senior Scholar, according to the above regulations.

But in case of any instance of non-residence in the university, for one whole term, before the Bachelor's degree, the electors, at their meeting, shall have the power of declaring vacant the Scholarship of the person so non-resident, in preference to that of the senior Scholar; if it appear to them that such non-residence is without sufficient excuse.

UNIVERSITY AND COLLEGE PRIZES.

The prizes for the encouragement of literature, free and open competition for the whole university, amount to near £1,200.; three-fourths of which are given for classics and English composition, the remainder for mathematics.

The amount of the annual prizes in the different colleges is about £300. two-thirds of which are given for the encouragement of classical literature.

WHITEHALL PREACHERS.

The Whitehall Preacherships were established by George I. in the year 1724. The Preachers are 24 in number, twelve from each university. They must be Fellows of colleges during the whole time they hold the office, to which they are appointed by the Bishop of London, as Dean of his Majesty's Chapel.—The figures after the name shew whether the turn is in the first or second part of the month.

PATRONAGE

IN THE GIFT OF THE UNIVERSITY.

When a benefice becomes vacant, the senior Proctor declares the vacancy, and a candidate is chosen by the senate. In regard to the vicarage of Burwell, the university, within four months after a vacancy, name

two candidates, and the Earl of Guilford presents one of them to the Bishop of Norwich.

EXHIBITIONS,

IN THE GIFT OF THE COMPANIES IN LONDON,

For Students in this University.

The following is the most satisfactory intelligence that we have been able to procure respecting the Exhibitions in the gift of the Companies in London:—

Bowyers', three, £10. per annum each, requiring residence according to the statutes of the university, tenable for seven years, but vacated earlier on receiving any preferment.

Clothworkers', one or two, £10. per annum each, tenable till M.A.

Cordwainers', two or three, £10. per annum each, tenable till M.A.

Fishmongers', ten, £10. per ann. each, for either university, and tenable till M.A. They have also one of £6. or £8. per ann. and confined to Sidney college.

Goldsmiths', one, £5. per ann. tenable seven years.

Grocers', four or five, £5. per ann. each, tenable till B.A.

Ironmongers', four or five, £5. per annum each, tenable till B.A. There is also one in the gift of this company, tenable as the preceding, and confined to Bene't college.

Leather-Sellers', five, four of £4. and one of £5. per ann. for either university, tenable four years.

Mercers', twelve, £12. per ann. each, and tenable till M.A. Six to each university.

Skinners', two of £15. per ann. and one of £5. per annum, tenable till M.A.; also two of £15. per annum to each university. This company has also six exhibitions, value £10. each, for scholars from Tunbridge school.

Independent of the before-mentioned, some inferior commercial bodies have exhibitions in their disposal.

The parish of St. Sepulchre has two exhibitions for either university, one of £5. the other of £4. per ann. each, and tenable for five years. These exhibitions are in the gift of the vestry, and preference is given to a parishioner.

Respecting the Fishmongers' Company, as before stated, each member of the Court of Assistants nominates a candidate, whom all the others elect. All the other exhibitions are disposed of by the Court of Assistants of the respective companies; those six excepted which are in the gift of the Mercers, and confined to Cambridge; of them the whole Livery has the disposal.

TRIPOSES,

OR,

Lists of those who have obtained Honors on commencing Bachelors of Arts; with the names of the Moderators of the respective years.

On the Tripos papers originally published, the names of the Honors, till the year 1755, seldom appeared; and in the Registrary's book, where all degrees, in the order of seniority, are inserted, no mark of distinction was ever observed, previous to that time, between the Wranglers and Senior Optimes.—As it was formerly the custom for the Vice-Chancellor and Proctors to confer Honorary Senior Optimes, a mark of distinction not then unfrequently conferred upon Wranglers, the regular order of previous years cannot be precisely ascertained, especially as these Honorary degrees were placed *ad libitum*. The years 1752 and 1753 are copies from the Registrary's book of entry. The year 1754 was arranged according to a wrangling paper. The custom of conferring Honorary Senior Optimes has of late years been abolished.

The Chancellor's Medals were first instituted in 1752; (A) denotes senior, (B) junior.

Dr. Smith's Mathematical Prizes were founded in 1769; (1) denotes senior, (2) junior.

TERMS AND EXERCISES

Necessary to be kept previous to taking the several Degrees.

A Bachelor of Arts* must reside the greater part of twelve several terms, the first and last excepted. The statutable exercises before admission *ad Respondendum Quæstioni*, are two acts and two opponencies; these in part are sometimes dispensed with, and kept by what is termed huddling. In order to take this degree at the regular time, the person's name must be entered on the boards before the end of Easter term.

A Master of Arts must be B.A. of three years standing, which time is reckoned from the second Tripos day following his admission *ad Respondendum Quæstioni.*

A Bachelor in Divinity must be M.A. of seven years standing. His exercise is one act (after the 4th year), two opponencies, a clerum, and an English sermon.

A Bachelor in Divinity (Ten-year-Man.) These are sanctioned by the statutes (12th Eliz.) which allow persons who are admitted at any college, being 24 years of age and upwards, to take the degree of B.D. at the end of 10 years. During the last two years they must reside the greater part of three several terms.—Exercises the same as required for a regular Bachelor in Divinity.

A Doctor in Divinity must be a Bachelor in Divinity of five or a †Master of Arts of twelve years standing. The exercises are one act, two opponencies, a clerum, and an English sermon.

A Bachelor in Law must be of six years standing complete, and must keep the greater part of nine several terms. The exercise is one act.

A Doctor in Law must be of five years standing from the degree of LL.B. or a Master of Arts of

* A Bachelor of Arts who intends to take the degree of M.A. is not required to keep his name on the boards during the interval between each degree. An entry of his name a few days before admission is sufficient.

† When a Master of Arts takes a Doctor's degree in any of the three faculties, he is said to graduate per Saltum, though properly this phrase belongs only to the degree of D.D.

seven years standing. The exercises are two acts and one opponency.

A Bachelor in Physic must keep the greater part of nine several terms, and may be admitted any time in his sixth year. The exercise is one act and one opponency.

A Doctor in Physic is bound to the same regulations as LL. D.

A Licentiate in Medicine is required to be M.A. or M.B. of two years standing. No exercise, but examination by the Professor and another Doctor in the faculty.

A Bachelor of Music must enter his name at some college, and compose and perform a solemn piece of music as an exercise before the university.

A Doctor of Music is generally Mus. B. and his exercise is the same.

Noblemen, and such as are entitled to Honorary Degrees, at two years standing:

1. Privy Counsellors.
2. Bishops.
3. Noblemen:——Dukes, Marquisses, Earls, Viscounts, Barons.
4. Sons of Noblemen.
5. Persons related to the King's Majesty by consanguinity or affinity; provided they be also honorable.
6. The eldest sons of such persons.
7. Baronets, } to the degree of M.A. only.
8. Knights, }

CAUTIONS FOR EXERCISES.

The University Statutes require certain Exercises (as appears under the head Terms and Exercises) to be performed for particular degrees, which are frequently granted with the omission of part or the whole, but with this condition, that they shall be performed within the following term. The party deposits as a pledge, the undermentioned sums with the Vice-

Chancellor, which, on non-performance of the exercises, are forfeited to the university chest:—

Note.—The caution-money remains generally in the hands of the Tutor or Sponsor, and is not returned till a person takes his name off the boards or becomes a Master of Arts. In most colleges, however, it is usual to leave £10. in the hands of the Sponsor as long as a Master of Arts, &c. keeps his name upon the college boards. A Nobleman pays no caution, but makes a present of plate to the college. In the case of a Fellow-Commoner, £10. or £15. of the caution-money is applied to the same purpose.

THE METHOD OF PROCEEDING TO THE DEGREE OF BACHELOR OF ARTS.

STUDIES AND EXERCISES.

The ordinary course of study preparatory to the degree of B.A. may be considered under the three heads of Natural Philosophy, Moral Philosophy, and the Belles Lettres. Under the first head are comprised the following subjects: the first six books of Euclid, the principles of algebra, plane and spherical trigonometry, and conic sections; the branches of philosophy, mechanics, hydrostatics, optics, and astronomy; the principles of fluxions, Newton's Principia, Increments, &c.

In the beginning of the month of January, one of the Proctors' servants goes round to every college in the university (King's college excepted) and requires of the tutors a list of the students (denominated Sophs) who, in the subsequent January, intend to offer themselves candidates for the degree of Bachelor of Arts. The names being thus collected are delivered to the Moderators.

Upon the second Monday in Lent Term, the Moderator whose turn it is to preside gives written notice to one of the students in his list to appear in the schools to keep an Act on that day fortnight. The notice (delivered by a person stiled the Moderator's man) is in the following form:

Respondeat, A. B. Coll. ——
Martii 5, 18— *C. D. Modr.*

This person, who is now called the Respondent or Act, waits upon the Moderator soon after with three propositions or questions, the truth of which he is to maintain against the objections of any three students of the same year, whom the Moderator (from the reports prefixed to the names in his book) shall think proper to nominate, and who on this occasion are called Opponents.

The questions proposed by the Respondent are written upon four separate papers, according to a form of which the following is a specimen:

Q. S.

Recte statuit Newtonus in Septimâ sua sectione Libri primi.

Iridis primariæ et secundariæ Phænomena solvi possunt ex principiis Opticis.

Recte statuit Lockius de Qualitatibus Corporum.

—— —— Resp. Martii 5.
Coll. ——

The first question is in general taken from the Principia of Newton, the second from some other writer on Mathematics and Natural Philosophy; the third is called the moral question, and is generally taken from Locke, Paley, or Butler.

At the bottom of three of these papers, the Moderator writes the name of a student, whom he thinks capable of opposing the questions of the Respondent, with the words *Opponentium*, *primus*, *secundus*, or *tertius*, denoting the order in which the three opponents are to appear. One of these papers is sent to each opponent.

When one Moderator has thus given out the exercises for a week, or five acts, (exercises being held for five days in a week during term,) the other proceeds according to the same method for the following week.

The fortnight of preparation being expired, the Respondent enters the Schools at one o'clock, the Moderator, attended by one of the Proctors' servants, appears at the same time, and, ascending the chair, says, "*Ascendat Dominus Respondens.*"

The Respondent mounts the rostrum, and reads a Latin dissertation called a thesis, upon any one of the three questions he thinks proper; generally upon the third or moral question. As soon as the Respondent has finished his thesis, the Moderator calls upon the first opponent to appear. (*"Ascendat Opponentium primus."*) He immediately ascends a rostrum opposite to the Respondent, and opposes his arguments against the question in syllogistic form.

Eight arguments, each consisting of three or four syllogisms, are brought by the first, five by the second, and three by the third opponent.

The opponent is dismissed by the Moderator with such a compliment as he deserves; and after the other two opponents have performed their parts, the exercise closes with the dismission of the respondent in a similar manner.

The distinguished men of the year appear eight times in this manner in the Schools, twice as acts and six times as opponents, that is, twice in each character of opponent. One act and three opponencies are kept before the Commencement, and one act and three opponencies are kept during the October term.

SENATE-HOUSE EXAMINATION.

The Vice-Chancellor appoints the first Monday of Lent Term, and the four following days, for the examination of the Questionists, this being the appellation of the students during the last six weeks of the preparation. The Moderators having formed the Questionists into classes (the persons in each class being arranged alphabetically) according to their performance in the Schools; the first six are exhibited at Deightons' shop on the Thursday preceding the examination day, which is always on the Monday after Plough Monday.

On the Monday morning, a little before eight* o'clock, the students enter the Senate-house, preceded by a Master of Arts, who, on this occasion, is styled the Father of the college to which he belongs. The classes to be examined are called out, and proceed to their appointed tables. There are three principal tables, at which six examiners preside. At the first the Senior Moderator of the present year, and the Junior Moderator of the preceding year. At the second the Junior Moderator of the present and the Senior Moderator of the preceding year. At the third the two Moderators of the year previous to the two last, or two examiners appointed by the Senate. Two tables are allotted to the six first classes. While this examination is proceeding at the three tables, between the hours of eight and nine, printed Problems are delivered to each person of the first and second classes. On two pillars at the entrance of the Senate-house are hung the classes; and a paper denoting the hours of examination of those who are thought competent to contend for Honors, of which the following is a copy:—

* Every Student who is not punctual at this and every hour appointed during the examination is subject to certain fines.

EXAMINATION ON THURSDAY.

The hours of attendance are the same this day as the former. The examinations are confined solely to logic, moral philosophy, and subjects relating to natural and revealed religion, &c.

The examinations of this day conclude as usual at five o'clock; but the fatigue of the examiners is by no means diminished; for during the whole of this, as on the preceding nights, they have a multitude of papers to inspect, and to affix to each its degree of merit; according to which a new arrangement of the classes is made out, called the Brackets.

EXAMINATION ON FRIDAY.

On Friday the examinations are resumed. At eight o'clock the new classifications or brackets, which are arranged according to the order of merit, each containing the names of the candidates placed alphabetically, are hung upon the pillars. Thus in the examinations of the preceding days, should any have distinguished themselves above the rest, and be nearly equal, they are included in the same bracket. The next who prove nearly equal to each other, are included in the second bracket. The next who are found to be nearly on a level with one another, are included in the third bracket; and thus the whole number are bracketed. Each bracket is then called out for examination, and the situation of each individual is thus finally determined. At five o'clock the examinations are finished, when a select number (thirty at least, *Stat. Acad.*) of those who have most distinguished themselves are recommended to the Proctors for their approbation, and their names are set down according to merit, and classed in three divisions, *viz.* Wranglers, Senior Optimes, and Junior Optimes, which constitute the three orders of Honor. The rest also are arranged according to merit.

Those who take the degree of Bachelor of Arts at any other time than this, are arranged alphabetically

in classes according to their supposed acquirements, either as *Baccalaurei ad Baptistam*, or *ad Diem Cinerum*, and inserted in the list of seniority among the οἱ πολλοι.

SATURDAY MORNING.

Admission of the Questionists.

This morning there is a Congregation; the bell begins to ring at nine o'clock, and at ten the whole appear in the Senate-house. Two papers exhibiting a list of the Questionists, arranged according to their merits, or seniority, are hung on the pillars for public inspection.*

Form of Admission of the Questionists.

When there is a sufficient number of Masters of Arts to constitute a congregation, one of the Bedells calls up the Houses, and the Senior Moderator makes a Latin speech; the Vice-Chancellor sitting in the chair, and the Moderator standing on his left hand.

The Junior Proctor delivers to the Vice-Chancellor the list of Honors and Seniority, subscribed thus, "*Examinati et approbati a nobis*," (*viz.* the Proctors, Moderators and other examiners.)

The Caput is then called for passing the supplicats of the † Questionists.

The name of each college is written on every supplicat, which is signed by the Prælector or Father of the college.

A certificate is also given to the Caput, signed and sealed by the Master of the college (or his locumtenens) shewing that each Questionist has kept his full number of terms; if not, the deficiency is mentioned in the supplicat, and a certificate explaining the cause is delivered to the Caput by the Father.

* For the honors of the present year, see p. 143.

† For a Student of King's college, who undergoes no examination for his Bachelor's degree, but claims it by a composition between the University and his college, no supplicat is offered. A grace is shewn to the Caput, and read by the Senior Proctor in the Regent-House only.

The Registrary shews to the Caput that every candidate has subscribed that he is *bona fide* a member of the Church of England.

The Vice-Chancellor reads the supplicats to the Caput, and on those that are admitted he writes *Ad.*

When they have been all read one of the Bedells carries them into the Non-Regent House, to be read by the Scrutators; and if all are approved, the Scrutators walk, and the senior says, *omnes placent.* But if any are disapproved of, he says, *A. B. &c. non placent, reliqui placent.*

Those supplicats in which any cause is assigned for not keeping the whole number of terms are read separately; but those which are of the same kind are read together in the usual manner.

The supplicats are then carried into the Regent-House, where the Senior Proctor reads them in the same manner as the Scrutators did in the Non-Regent House. If all are approved of, the Proctors walk, and the senior says, *Placent omnes, placeat vobis ut intrent.* If any are disapproved of, he says as above.

The supplicats are then delivered to the Registrary, who writes on them, *Lect. et concess. die — Jan.*

In the mean time the candidates, who during the whole proceedings of the Senate are usually in the saloon or gallery, put on their hoods over their undergraduate gowns, and the School-keeper gives to each of them a printed copy of the oath he is to take at his admission.

The Vice-Chancellor takes the chair, and a Bedell having desired the respective Fathers to be in readiness with their Sons, he precedes the Father of the Senior Wrangler (the rest of the Fathers following with their Sons) to the Vice-Chancellor.

The Father, taking the Senior Wrangler by the right hand, presents him in these words:

Dignissime Domine, Domine Pro-Cancellarie et tota Universitas, præsento vobis hunc juvenem, quem scio, tam moribus quam doctrinâ, esse idoneum ad respondendum quæstioni, idque tibi fide meâ præsto, totique Academiæ.

The Father of King's next presents his Sons in the same manner. The Fellow-Commoners are then

presented, and after them the Questionists of Trinity and St. John's, and then those of the other colleges, according to the seniority of the Fathers. Four or five may be presented at once, the Father saying, *Præsento vobis hos juvenes, quos, &c.*

As they are presented, they are directed by one of the Bedells to the south side of the Senate-house.

When all are presented, the Senior Wrangler takes the oaths of allegiance and supremacy; and the senior Proctor (with his colleague standing by him) reads to him the printed oath:

Jurabis quod nihil ex iis omnibus, sciens, volens, prætermisisti, quæ per leges aut probatas consuetudines hujus Academiæ, ad hunc gradum, quem ambis adipiscendum, aut peragenda, aut persolvenda, requiruntur nisi quatenus per gratiam ab Academiâ concessam tecum dispensatum fuerit. Jurabis etiam quod Cancellario, et Pro-Cancellario nostro comiter obtemperabis, et quod statuta nostra, ordinationes, et consuetudines approbatas, observabis. Denique jurabis quod compositionem inter Academiam et collegium Regale factam sciens, volens, non violabis.

Ita te Deus adjuvet, et sancta Dei Evangelia.

A Bedell then calls four of the Fellow-Commoners, who take the same oaths, the senior Proctor saying *Eadem juramenta quæ præstitit, &c.* and so on with all the Questionists, as their names stand in the list signed by the Proctors and Examiners.

When all are sworn the Vice-Chancellor goes to the front of the table, and the Proctors stand on each side. The Senior Wrangler and all the other Questionists follow one of the Bedells round the chair, and, as they pass by the table, they bow to the Vice-Chancellor and Proctors.

The Vice-Chancellor returns to the chair, and the Senior Wrangler kneeling down, the Vice-Chancellor takes his hands between his own, and admits him in these words:

Authoritate mihi commissa, admitto te ad respondendum quæstioni. In nomine Patris et Filii et Spiritus Sancti.

The students of King's, Fellow Commoners, and all the other Questionists, are then called by a Bedell, and admitted in the same manner.

As the Questionists are admitted, they go to the Sophs' Schools, to answer the *question which is asked them by their respective Fathers.

When there is an end of the admissions, the Vice-Chancellor dissolves the congregation.

FIRST TRIPOS DAY.

On the day after Ash Wednesday, at one o'clock, the bell rings for the first Tripos.

At two, the Vice-Chancellor and the Proctors meet in the vestry of Great St. Mary's church.

The whole company then proceed to the Law Schools; the Vice-Chancellor, preceded by a Bedell, goes into the gallery; the senior Proctor with a Bedell into the respondent's seat, and the junior Proctor into the opponent's seat.

Each of the Proctors makes a Latin speech, and the Tripos papers, which contain the names of the Wranglers and Senior Optimes of the year, and two copies of verses written by two undergraduates whom the Proctors choose to honour on this occasion, are distributed among the undergraduates and the company present.

A Bedell reads from a Tripos paper:

Baccalaurei quibus sua reservatur senioritas comitiis prioribus.

He then pronounces the name and college of the first Bachelor in the list, to which the junior Proctor answers:

Nos reservamus ei senioritatem suam.

To the second the junior Proctor answers, *et ei*, and so on to all the names on the Tripos paper.

When all the names are read, the junior Proctor says:

Nos continuamus hanc disputationem in horam primam diei Jovis, post quartam dominicam hujus quadragesimæ.

* These questions are merely matters of form.

SECOND TRIPOS DAY.

The second Tripos Day is on the Thursday after Midlent Sunday; the bell begins to ring at one. The Moderators, dressed in the Proctors' congregation habits, meet the Vice-Chancellor in the vestry of Great St. Mary's church at two o'clock, and from thence proceed to the Law Schools. The Vice-Chancellor, preceded by a Bedell, goes into the gallery; the senior Moderator, with a Bedell, into the respondent's seat; and the junior Moderator into the opponent's seat.

Each of the Moderators makes a Latin speech, and the Tripos papers, containing a list of the Junior Optimes of the year, and two copies of verses written by two undergraduates, at the request of the Moderators, are then distributed amongst the undergraduates and company present.

A Bedell reads from a Tripos paper, *Baccalaurei quibus sua reservatur senioritas comitiis posterioribus.*

He then reads the name and college of the first Bachelor, and the Junior Moderator answers, *Nos reservamus ei senioritatem suam.*

To the second, the Junior Moderator answers, *et ei*, and so on, as in the first Tripos.

When all the names have been read, he says:

Reliqui (i. e. the οἱ πολλοι, &c.) *petant senioritatem suam e registro.*

And lastly, *Authoritate qua fungimur, decernimus, creamus, et pronunciamus omnes hujus anni determinatores, finaliter determinasse,* ET ACTUALITER ESSE IN ARTIBUS BACCALAUREOS.

PROCEEDINGS IN LAW.

Preparatory to the degree of Bachelor in Law, a student is obliged to attend the lectures of the Professor for the space of three terms; and after four years' standing, and a residence of nine terms, he may keep his *Act. Prior to this exercise, he carries

* Zouche's or Vinnius's Questions deserve to be consulted by a person preparing for this Act, as also the Commentaries of Vinnius and Voet.

his questions to the Vice-Chancellor for his approbation; after which they are affixed to the door of the Lecture-room under the Public Library.

Form of a Notice for an Act.

Q. S.

Bona fidei possessor fructus percipiendo suos facit.
Legatarius in testamento Testis esse potest.

Coll. —— 4to. die Maii. *A. B. Resp.*

The first question is proposed by the respondent, the second by the Professor.

On the day of the Act, the university bell begins ringing at one in the afternoon, and a quarter of an hour before two, the respondent is waited on by a Bedell, who precedes him to the Law Schools, followed by the Father and other members of his college. During this procession the respondent walks with his cap off, and on arriving at the Schools ascends a rostrum opposite the Professor.

The Professor in his robes, preceded by a Bedell, then takes the chair, and the Father, seated in the opponent's rostrum, directs the respondent to begin—"*Agas Domine.*"

The respondent then commences his exercise by reading a Latin dissertation, which occupies about half an hour, on the first question. The arguments against both the questions are then propounded in syllogistic form, by a candidate for the degree of LL.D. or more usually by the Professor.

The disputation having thus proceeded for an hour, the Professor gives the respondent an appropriate honor. The exercise then concludes with the Professor's determination upon the second question.

The habit worn by the respondent in the Schools, and by the candidate in both congregations, is a full-sleeved gown, and a Bachelor of Arts' hood.

At the expiration of six years, the supplicat and the certificate of terms and residence, signed and sealed by the Master of the college, or his locum-tenens, together with the Professor's certificate (*see p.* 21) are presented to the Caput, and afterwards read in

both Houses. After the congregation, the candidate waits upon the Vice-Chancellor and the members of the Caput; and at the next congregation, after the supplicat has again been read in both Houses, and approved by them, he is admitted to the degree of Bachelor in Law.

PROCEEDINGS IN PHYSIC.

A student, before he can proceed to the degree of Bachelor in Physic, must have entered on his sixth year, and have resided nine terms. The exercises for this degree are one act and one opponency, the latter of which is usually compounded for. The form of notice, ceremonies, and mode of keeping the act, are precisely similar to those described in the last article, under the head of Proceedings in Law. The questions for the act generally refer to some practical point, or to some physiological or pathological subject. The act must be kept either during the term in which the degree is taken, or during the preceding term.

By a late Grace of the Senate, the candidate for this degree must have attended the Lectures of the Professor of Physic for three terms; and of this he must lay before the Caput a certificate in the handwriting of the Professor. All candidates are examined by the Professor as to their proficiency in the medical sciences, before they keep their act. *(Vide p. 23.)*

A Bachelor of Arts may proceed to the degree of Bachelor in Physic as soon as he is of sufficient standing, provided that one year at least shall intervene between the two degrees, during which he must attend the Lectures of the Professor of Physic.

A student who has declared for Law or Physic, may put on a full-sleeved gown when those of the same year, who go out at the regular time, have taken their degree of Bachelor of Arts. He is then stiled a Harry-soph. (ερισοφος.)

THE UNIVERSITY LIBRARY.

For the supplying this Library with books, provision has been made by a statute, 8th Queen Anne, entitled an Act for the encouragement of learning, by which it is enacted, c. 9, § 5, "that nine copies of each book, upon the best paper, that *shall be printed and published as aforesaid*, or *re-printed and published with additions*, shall, by the printer, be delivered to the warehouse-keeper of the Company of Stationers, before such publication, for the use of the royal library, the libraries of the universities of Oxford and Cambridge, the libraries of the four universities in Scotland, the library of Sion college in London, and the library belonging to the faculty of Advocates at Edinburgh; and the warehouse-keeper is required, within ten days after demand by the keeper of the respective libraries, to transmit them; and if any proprietor, bookseller, or printer, or the warehouse-keeper, shall not observe the directions of this Act therein, that then he or they so making default, shall forfeit the sum of five pounds, and also the value of the said printed copy not so delivered; the same to be recovered by the King and the Universities, &c. respectively, with their full costs."

To the same purpose the rents of the University's estate at Ovington in Norfolk are applied. This estate was bought with the money given to the University in 1666, by Tobias Rustat, Esq. Yeoman of the Robes to Charles the 2d, to be laid out in land, the rents to be applied in the purchase of choice books for the Public Library.

The management of the Library is committed to Syndics, who are the Vice-Chancellor, the Heads of colleges, all Doctors in each faculty, the Orator, and all public Professors, the Proctors, and Scrutators. They meet in the Library on the first Monday after the division of every term, and oftener if necessary, and to them, or the major part, not less than five, of whom the Vice-Chancellor must always be one, full

powers are committed for the better regulating of the same.

All members of the Senate, and Bachelors in Law and Physic, are entitled to the use of the Library.

The Syndics have at various times issued regulations to the following effect:—

That no person be allowed to have in his possession at any one time, more than ten volumes belonging to the Library, except by a dispensation from the Vice-Chancellor and the Librarians, if they shall be unanimously of opinion that sufficient reasons have been assigned for the same; and that such dispensations continue in force no longer than to the end of the quarter in which they shall be granted; but upon fresh application may be renewed by the same authority.

That no one take or borrow any book out of the Library, without first delivering to one of the Library-Keepers a note for the same, in his own hand-writing, expressing his name and college, and the year and day of the month on which such book is taken or borrowed, on pain of forfeiting five pounds, or double the value of such book, at the discretion and the judgment of the Vice-Chancellor.

That the Library-Keepers preserve carefully all such notes, till the book so taken out be returned again to the Library, duly entering the same in a book to be kept for that purpose, together with the day of the said return, and any damage done to any book, on pain of five shillings for every omission, to be paid by them, or any of them.

That every one who shall borrow or take any book out of the Library, return it thither again on or before the next of the four following days, *viz.* Michaelmas-day, St. Thomas, Lady-day, and Midsummer-day, or oftener, if the Syndics see occasion and require it, under the penalty of two shillings for every folio or quarto, and one shilling for every book of less size; the penalty to be repeated every month till the book be returned. or another of the same edition and equal value placed in its room.

That no person shall have more than five volumes out of the lock-up classes of the Library, by a note

countersigned by the Vice-Chancellor; and that such books be returned at the end of each quarter, as all other books are, under *double* penalties.

That for the purpose of allowing the Librarians sufficient time to inspect the books at the end of each quarter, all books be kept in the Library on the day appointed for their return and the whole of the day following.

That no manuscript whatever be taken out of the Library, without a Grace for its removal being obtained from the Senate.

That no volume containing a collection of prints or drawings shall be taken out of the Library on any account whatever.

That every year, on the Friday next after the Commencement, or oftener if they see occasion, the Syndics shall meet in the Senate-house, or elsewhere, at the appointment of the Vice-Chancellor, to give orders and appoint inspectors, for a general survey of the Library the Monday following. These inspectors, with the Librarians, shall make a full and true catalogue of all books wanted or much damaged, expressing in whose custody such books are, or by whom damaged, and deliver the same, signed by them, to the Vice-Chancellor.

That all books in this catalogue be returned to the Library perfect and undamaged, or others of the same edition and equal value, placed in their room there within thirty days after notice given, on pain of forfeiting five pounds for every volume not so returned, or the full value of the same, at the discretion and in the judgment of the Vice-Chancellor, to be paid by him who stands charged with it; or, in case no one shall be charged with it, by the Library-Keepers or their deputies, or any of them; unless it shall appear to the Vice-Chancellor that such loss or damage has not happened through any neglect or default of the said Library-Keepers, or their deputies.

That if, after the said thirty days, on inquiry and report to be made by the said inspectors, or otherwise, it appears to the Vice-Chancellor, that any books be still wanting in the Library, or much damaged, he

shall order others, without delay, to be procured, at the expence of the public chest, and put in their places.

That all the penalties above-mentioned shall be levied as other penalties are, by the Queen's statutes, chap. 50, and go one-third to the Bedells who collect them, the rest to the public chest.

The Library is open every day from ten to three, except Sundays, Saturdays, and Saints' days. On Saturdays it is open from ten to one; and on Saints' days from twelve to three. It is shut up from Christmas day until Jan. 2.

THE UNIVERSITY PRESS.

The management of the University Press is committed by the Senate to Syndics, who meet to transact business in the parlour of the Printing-Office, and cannot act unless five are present, the Vice-Chancellor being always one. The Syndics are, the Vice-Chancellor, Lord Bishop of Peterborough, Lord Bishop of Bristol, Dr. Turner, Dr. Cory, Dr. Procter, Dr. Wordsworth, Dr. Davy, Dr. Chafy, Dr. G. Thackeray, Dr. Wood, Dr. Webb, Mr. Serjeant Frere, Dr. Geldart, Professor Monk, Professor Calvert, Mr. Veasey, and Mr. Wm. Hustler.

THE FITZWILLIAM MUSEUM.

Richard, Viscount Fitzwilliam, formerly of Trinity Hall, (M.A. 1764,) who died 5th February 1816, bequeathed to the University his splendid collection of books, paintings, drawings, engravings, &c. together with £100,000. South Sea Annuities, for the erection of a Museum for their reception. The following is an extract from his will, dated 18th August 1815:—

"I give and bequeath unto the Chancellor, Masters, and Scholars of the university of Cambridge, all my

capital stock in the New South Sea Annuities, to be had and held by them the said Chancellor, Masters, and Scholars, and their successors for ever, upon the trusts and to and for the intents and purposes hereinafter expressed and declared touching and concerning the same. And as to all my pictures, portraits, prints, drawings and engravings, whether framed, glazed, or otherwise. And also the frames and glass thereof respectively. All my books, printed, engraved or manuscript, bound or unbound. All my music, bound or unbound. All my busts, statues, medals, gems, precious stones, and bronzes whatsoever which shall belong to me at the time of my decease; I give and bequeath the same unto the said Chancellor, Masters, and Scholars of the said university of Cambridge, and their successors for ever, upon the trusts and for the intents and purposes hereinafter expressed, declared, and contained touching and concerning the same. And I do hereby declare my will to be, and hereby direct that they the said Chancellor, Masters, and Scholars do and shall with all convenient speed after my decease, by and out of the dividends and annual proceeds of my said New South Sea Annuities so directed to be transferred to them as aforesaid, cause to be erected and built a good substantial and convenient Museum, Repository, or other building, within the precincts of the said university, for the reception and preservation of the said pictures, books, and other articles, or to purchase one or more erections or buildings for that purpose. And in the mean time and until such a Museum, Repository, or other building shall be erected, built or purchased as aforesaid, to procure a proper building for their temporary reception, and to pay rent and taxes for the same, and also to pay and defray all the costs, charges and expences attending the removing and depositing the said respective articles. And it is my will, and I hereby direct that none of my said pictures, books, or other articles before mentioned, shall be taken or removed from the Museum or Repository for the time being, by any person or persons whomsoever, or on any account or upon any pretence whatsoever, except

only in the case of fire happening, and then only during the time the necessity continues. And I do hereby declare my will to be, and hereby direct that the expence of keeping such pictures, books, and other articles before mentioned, and the salaries of officers and other persons to be employed in or about the same, shall be discharged with and out of the dividends and annual proceeds of the said New South Sea Annuities so given and bequeathed as aforesaid. And I do hereby declare that the bequests so by me made to the said Chancellor, Masters, and Scholars of the said university, are so made to them for the purpose of promoting the increase of learning, and the other great objects of that noble foundation: but the particular arrangement, economy, and disposition of the property comprised in the said legacies and bequests I have made and given, I commit (subject to the several trusts hereinbefore expressed) to the direction and management of the said Chancellor, Masters, and Scholars, in such manner as is provided by the laws and usages of the said university."

And, after other dispositions, his Lordship gave the residue of his personal estate to George-Augustus Earl of Pembroke and Montgomery, and appointed him sole executor of his will.

Regulations of the Fitzwilliam Museum.

1. The Museum shall be open for inspection every day on which the Public Library is opened, from 10 o'clock in the morning till 2 in the afternoon, and from 4 o'clock till 6 in the evening, during the months of April, May, June, July, August, and September; and from 11 in the morning till 3 in the afternoon, during the remainder of the year.

2. Any Member of the Senate may introduce two persons in *statu pupillari* at one time, or any strangers or friends who do not belong to the university; but he must remain with them as long as they continue in the Museum.

3. No pecuniary gratification shall be received by the keeper on these occasions.

4. The Fitzwilliam Museum shall be inserted with the Library, in the oath of admission to degrees.

5. No member of the university shall be admitted into the Museum, unless he appear in his academical habit.

The Free School in Free School Lane has been fitted up for the temporary reception of this splendid collection.

The following Syndicate are appointed to consult and report to the Senate upon a plan for carrying into effect that part of the will which relates to the erection of a Museum:—The Vice-Chancellor, Dr. Davy, Dr. G. Thackeray, Dr. Kaye, Dr. French, Professor E. D. Clarke, Mr. Hailstone, Professor Calvert, and Professor Sedgwick.

Curator of the Museum, William Key.

The collection in the Fitzwilliam Museum has been augmented by many valuable donations of Paintings, Prints, Books, &c.; a list of which may be seen in the donation book, at the Museum.

THE BOTANIC GARDEN

Occupies between three and four acres, on the south-east side of the town, conveniently disposed, and well watered. This piece of ground, with a large and ancient edifice that formerly belonged to the Augustan Friars, was purchased by the late Dr. Richard Walker, Vice-Master of Trinity college, for £1,600.

The old building having been sold, a new building has lately been erected, for the use of the Lecturers in Chemistry and Botany.

This garden is under the government of the Vice-Chancellor, the Provost of King's, the Masters of Trinity and St. John's, and the Professor of Physic.

Curator, Arthur Biggs, A.L.S.

CAMBRIDGE PHILOSOPHICAL SOCIETY.

(Established November 15, 1819.*)*

The Cambridge Philosophical Society is instituted for the purpose of promoting scientific enquiries, and of facilitating the communication of facts connected with the advancement of philosophy and natural history. (See the address, stating the design and objects of the institution, as written at the request of the Council, by Dr. E. D. Clarke, which was read at the first meeting, and afterwards printed by the society for gratuitous distribution.)

The society consists of Fellows and Honorary Members. The Fellows are elected from such persons only as are graduates of the university of Cambridge.

Every person desirous of being admitted a Fellow of the society, must be proposed and recommended by three or more Fellows, according to a form prescribed by the regulations of the society, and the ballot for his election takes place at the second meeting after that at which the candidate is proposed, and no person is declared elected unless he have in his favor two-thirds of the members voting. Honorary Members are elected in the same manner, except that the recommendation must be signed by at least six Fellows, and *the cause* of recommendation *particularly expressed.* The annual subscription of each Fellow is one guinea, paid in advance; or the sum of ten guineas in lieu of annual payments. Admission-fee, one guinea.

No graduate or member of the university of Cambridge can be admitted an Honorary Member.

Every person who contributes to the collection or library of the society will be recorded as a benefactor, his name will be read at the annual general meeting, and inserted in the next succeeding volume of the society's memoirs.

All communications, presents, &c. are to be sent to one of the Secretaries, if not personally presented by a member at a meeting of the society.

The present society consists of 232 Fellows and 52 Honorary Members.

Attached to the society is a reading-room, which is supplied with the principal literary and scientific journals, and the daily papers. All members of the society pay, during their residence in Cambridge, one guinea annually for its support.

COMBINATION PAPER.

The sermons before the University at Great St. Mary's, are preached by Bachelors in Divinity and Masters of Arts who have completed their first year, beginning with the former. The two papers, one published in July and the other in December, are made out by the Bedells and signed by the Vice-Chancellor. The *Prior Combinatio* contains the Sunday morning turns, and is made after the following order:—The colleges are divided into seven classes, each of which (Trinity hall excepted, which sends no morning preacher) provides a preacher every seventh turn. In the three first colleges the name is omitted, in the remaining twelve the preacher's name and college are set down.

1. King's.
2. Trin.
3. Joh.
4. { Pet. Chr. Magd.
5. { Queen's. Pemb. Cath.
6. { Bene't. Clare. Sid.
7. { Caius. Jes. Emm.

The *Posterior Combinatio* contains the Sunday afternoon turns and Saints' days, and is made according to the order in which the members stand in the Registrary's book. The names as well as the colleges are here mentioned.

The Combination Papers are immediately on their publication sent to the Tutors of the respective colleges, who communicate to the persons named in the Paper the time appointed for them to preach. Substitutes procured by such as omit to preach in their turn, receive three guineas a sermon. The Vice-Chancellor appoints the preachers for the Lent and Summer Assizes, and extraordinary Fasts and Thanksgivings. The payment is five guineas a sermon.

SELECT PREACHERS.

A Grace having passed the Senate: "That those to whom the Sunday afternoon turns, and the turns for Christmas-day and Good Friday, are assigned, shall, from the beginning of October 1821, to the end of June 1822, provide no other substitute than such as should be appointed in conformity with that Grace:" —The following persons have been elected, each for the month to which his name is affixed:—

NEW FREE SCHOOL,

In St. Peter's Parish.

This institution was founded A. D. 1808, for the education of the poor of this town and the adjacent villages. It was originally established upon the plan of Dr. Bell and Mr. Lancaster, but is now placed wholly upon that of the former, as adopted by the National Society. The children are admitted between the ages of 6 and 11, and are instructed in reading, writing, and arithmetic, at an annual expence of not quite 8*s*. each, including books, slates, &c. They are also instructed in the catechism and parts of the liturgy of the Church of England.

The institution is under the management of Governors, who are constituted by a donation of ten guineas, or an annual subscription of one guinea. By means of a liberal subscription they have been enabled to purchase a piece of ground, and build a spacious school-room, calculated to hold 300 boys;

and by the aid of a donation of £150. from the University, donations from some of the colleges, the Members of the University, and other individuals, a house has been built for the Master contiguous to the School. A weekly meeting of the Governors is held every Wednesday at twelve o'clock in the school-room. A sermon for the benefit of this institution is preached annually in the Spring; and the yearly statement, published in June, may be had of J. Deighton and Sons, booksellers, by whom subscriptions are received, and by any of the bankers in Cambridge.

OLD CHARITY SCHOOLS,

Commonly called Whiston's Charity Schools.

This institution was set on foot in the year 1703, and supported by voluntary contributions. It owed much at its first establishment to the activity of William Whiston, M.A. and amongst its earliest patrons are found the names of Sir Isaac Newton, Bishop Patrick, Dr. Bentley, &c. The design of it was to educate charity children of both sexes.

The New Free School in St. Peter's parish, for the education of boys, having been united to the National Society, June 22, 1813, it was thought expedient to transfer the boys to that institution, to which this allows in consequence the sum of £30. annually. In the year 1816 a new-school-room for the girls was built in King Street, capable of containing 300 children, and likewise a house for the mistress, and the establishment was put on the plan of the National Society, to which it was then united.

The girls are taught reading, writing, something of accounts, needlework, and knitting. They learn the catechism and other religious books, and are required to attend divine service in their parishes on Sundays. The Lord Bishop of Ely is the patron. The Ministers and Lecturers of the parishes in Cambridge are the governors. There is also a committee of ladies, who

superintend the detail of the school. The governors and subscribers nominate the girls who are educated; each guinea subscribed gives a right of nominating four children, or ten guineas paid at one time entitles the donor to recommend four children annually.

Subscriptions are thankfully received by Professor Farish, the treasurer; by the Governors; by Messrs. Deighton and Sons, booksellers; or by any of the bankers in Cambridge.

ADDENBROOKE'S HOSPITAL.

John Addenbrooke, M. D. formerly Fellow of Catharine hall, in the year 1719, left about £4,000. to erect and maintain a small Physical Hospital; but the money being insufficient for the support of it, an Act of Parliament was obtained to make it a General Hospital. It was opened at Michaelmas 1766, and the number of patients annually relieved is upon an average 700. The expences of late years have been about £1600. per ann. of which sum about £600. arises from the permanent funds, and the remainder from the voluntary contributions of the public.

Mr. John Bowtell, late a bookbinder and stationer in Cambridge, by his will bearing date the 22d day of September 1813, bequeathed a legacy to the Hospital in the following words:—"I give and bequeath unto the President and Governors of Addenbrooke's Hospital, in the town of Cambridge, £7000. in the 3 per cent. Consolidated Bank Annuities, to be by them applied in enlarging the said Hospital, if necessary, for the purpose of receiving persons of other descriptions than those of sick patients, such as poor married women during their confinement, or otherwise, as they shall see fit and adviseable."

Benefactors of 20 guineas or upwards are governors for life; annual subscribers of two guineas or upwards are governors during payment. Each person may recommend patients according to the amount of the subscription.

An accurate statement of the accounts and a list of subscribers is printed annually, and may be had *gratis* by any of the contributors, at Messrs. Deighton's, or at the Hospital.

Benefactions and annual subscriptions are thankfully received by Mr. Alderman Purchas, St. Andrew's Street; Messrs. Deighton, booksellers; Miss Wilkinson, Wisbech; Mr. Edwards, Ely; and by the Apothecary and Matron, at the Hospital.

PRESENT OFFICERS OF THE CHARITY.

UNIVERSITY ALMS HOUSES.

These Alms Houses, situate in King Street, were founded in 1505, by Matthew Stokys, M.A. of Caius college, one of the Esquire Bedells, for six poor women, who are appointed by the Vice-Chancellor. The value of the original endowment was 7*d.* a week for each poor woman, and 8*s.* apiece at Stourbridge Fair, to buy them frize gowns and linen veils; but between the years 1695 and 1796, the annual stipend to each person was only 10*s.* In the latter year a Grace passed the Senate for the increase of the stipend from 10*s.* to 50*s.* Each person since that time has regularly received £2. 10*s.* a year.

PERSE'S ALMS HOUSES.

The Alms Houses, S. E. corner of Free School Lane, near the Botanic Garden, for six poor single persons, not less than forty years of age, and belonging to the parishes of St. Edward's, St. Michael's, and in failure of such being found there, of St. Benedict's, in the town of Cambridge, were built and endowed with a salary of £4. per ann. to each person, by Dr. Perse, whose numerous acts of charity and beneficence are justly recorded on a handsome monument in the chapel of Caius college.

STOREY'S ALMS HOUSES.

Edward Storey, gent. left by will (1692) all his property for founding Alms Houses: one for four clergymen's widows of the Church of England, another for two widows and one maiden of the parish of St. Giles and three maidens of the parish of the Holy Trinity, in the town of Cambridge. "Every of which widows and maidens to be forty years of age at the least, and of sober life and conversation. And to each widow and maiden a house to live in, and £10. per ann. payable half yearly; and to each, one gown, two pair of shoes, and one pair of stockings. The overplus of

the rents and profits to be kept for a stock, to supply and make good all casualties that may happen to the said estate."—Dr. Goddard, late Master of Clare hall, left a legacy to augment the stipends of the four clergymen's widows, with which the trustees purchased £410. stock, 4 per cent. All the widows receive yearly other perquisites besides those enumerated.—Mr. J. Merrill, late bookseller in this town, left by will (Oct. 1805) £1667. in the 3 per cents. to this charity.—The trustees are, the Rev. F. Barnes, D.D. Master of Peterhouse, the Rev. R. T. Cory, D.D. Master of Emmanuel, and the Rev. G. Thackeray, D.D. Provost of King's.

Steward & Receiver, Mr. Robert Gee.

KING'S COLLEGE ALMS HOUSES.

These houses, adjoining the precincts of the college, are for four poor women, who daily receive from the college the remains of the commons from the Bursars' and part from the Scholars' tables. In the absence of the Scholars, during the long vacation, they have a joint of meat in turn. They have also each four bushels of coals at Christmas, and 10*s.* each per quarter, exclusive of part of the sacrament money.

QUEEN'S COLLEGE ALMS HOUSES.

These Alms Houses, situate in Silver Street, are appropriated to eight poor widows, appointed by the President of Queen's. Each person, from certain funds vested in the hands of the society, receives 2*s.* and a pound of meat a week, and a chaldron of coals every year. They have also an additional gratuity of £1. the 25th of September, and 2*s.* 6*d.* on the 24th of December.

N. B.—Most colleges have certain funds appropriated for charitable purposes.

(Founded 1257.)

Copies of the Statutes in the British Museum, Mss. Harley, *No.* 7032, *P.* 187, *Old Statutes.*—*No.* 7046, *P.* 132, *New.*

Here are fourteen Fellowships on the foundation, into which no person who is M. A. or of sufficient standing to take that degree can be elected; and there cannot be more than two Fellows of a county, (except of Cambridge or Middlesex,) seven of whom must be in the northern and seven in the southern division. Westmoreland, Northumberland, Cumberland, Durham, York, Lancaster, Chester, Derby, Stafford, Nottingham, Leicester, Lincoln, Salop, Worcester, Warwick, Rutland, Northampton, Norfolk, Bedford, and Huntingdon, with the Welch counties of Anglesea, Carnarvon, Flint, Merioneth, Montgomery, and Denbigh, are esteemed northern. With regard, however, to Cambridge or Middlesex, there may be four Fellows of either county. One fourth part only of the foundation Fellows are required to be in Priest's orders. By Queen Elizabeth's licence, the five senior Clerical Fellows may hold any livings with their Fellowships, provided they are not more than £20. in the *Liber Regis*, and within 20 miles of the university of Cambridge. The eight Bye Fellows are distinct from the former, and not entitled to any office or voice in the affairs of the college; but perfectly open and unrestricted, and are eligible to foundation Fellowships, if not of M.A. standing. Two *(a)* founded 1589, by Andrew Pern, D.D. Two *(b)* 1601, by Lady Ramsey, value £13. 6*s.* 8*d.* per annum each. Four *(c)* 1637, by Thomas Parke, Esq.

The Scholarships, forty-eight in number, (none exceeding £13. per annum) are paid in proportion to residence. A few of them are in the patronage of Lord Melbourne, and preference is given to scholars from Hertford School. Here are no exhibitions for any

public or private seminary. The Bishop of Ely appoints to the Mastership one of two candidates presented to him by the society. The candidates must be Bachelors in Divinity.

CLARE HALL.

(Founded 1326.)

Copies of the Statutes in the British Museum, Mss. Harley, *No.* 7032, *P.* 319, *New.*—*Do.* 7041, *P.* 43, *Old.*—*University Library*, Mss. Mm. 3, 5, *New.*

This ancient college, hall, or house, consists of a Master, ten Senior or Foundation Fellows, seven Junior, and three bye-appropriation Fellows, besides Scholars, Students, and Foundation Servants. The Fellows are all natives of England, or rank as such. A candidate for a Fellowship must be a Bachelor of Arts, or a higher degree; and no one is ever superannuated, or incapable of being a candidate, on account of age or length of standing in the university. An election must take place within ten weeks and three days after a Fellowship has become vacant. The electors are, the Master, Senior and Junior Fellows; and in case there be an equal division, the Master has the casting vote. The Master is elected by the above-mentioned Fellows within eleven days after a vacancy is known, and a candidate must be either a Bachelor or Doctor in Divinity. Fellows neglecting to take the degree of M.A. at the regular time, are punishable by a fine; but the degree of B.D. has not of late been required. The Seniors must all be divines except two, who, with the consent of the Master and major part of the Fellows, may practise Law and Physic. There cannot be more than two Fellows of the same county in the seniority, or a majority born in the *transtrentane* counties, which are the following:—Northumberland, Cumberland, Westmoreland, Durham, Yorkshire, Lancashire, Derbyshire, and Nottinghamshire.

The seven Junior Fellowships, founded by different benefactors, (*viz.* three by Lord Exeter in 1612, two by John Freeman, Esq. in 1622, and two by Joseph Dig-

gons, Esq. in 1658) are perfectly open to all the counties in England, and not restricted to two Fellows of a county, or to the division of north and south, as the Seniors are, the local arrangement of whom has no reference to these. After a certain standing they are required to take Priest's orders. They enjoy the same privileges as the Seniors, and the only thing to be considered is, whether a person when elected a Junior is likely to be obstructed or thrown out of his rotation in becoming a Senior. For with regard to the choice of college livings *seniores priores*, and this is determined by priority of election into the Seniority.

The three bye-appropriation Fellows have no voice in any college business, can hold no college office, and are incapable of being ever elected into any other Fellowship. They are obliged to take Priest's orders within seven years after they are Bachelors of Arts. Two of these Fellowships, founded by Mr. Philpot, are appropriated to natives of Kent, with a preference to those born in the hundred of Blackheath. The third was founded by Mr. Borage, for his name and kindred, or a Norfolk or Norwich man. This Fellowship is not tenable by a Non-Regent Master of Arts.

There are eight Scholarships lately increased, four of which are £50. per annum each, and the other four £20. each, they are tenable by undergraduates only, and are so arranged that one on each foundation shall be vacant every year.

One founded by Sir John Trott, value £20. per ann. and tenable till M.A. degree.

Two by Mr. Cave, appropriated to scholars from Wakefield school, value one guinea and a half each per week during residence.

One by Alex. Metcalfe, appropriated to a scholar from Hull school, value 12*s*. per week during residence.

Besides these there are upwards of thirty other Scholarships, varying in value from two to six shillings per week, and are allowances in the butteries during residence.

All the above Scholarships (except the three specified) are perfectly open to all competitors, and the

annual examination takes place on the same Monday and Tuesday as the Senate-House Examinations for the degree of B.A.

Four exhibitions of £13. per annum each, were founded by Archdeacon Johnson, for persons educated at Oakham and Uppingham schools.

The present society wish to admit no more than three Sizars.

ANNUAL PRIZES.

One of ten guineas, left by Mr. Greaves of Fulbourn, to any Bachelor of Arts (not a Fellow of the college) who shall compose the best Dissertation on the character of King William III. It must be sent to the Master on or before Michaelmas-day, and that which is adjudged to be the best is recited on the 4th of November in the hall of the college.—Last year adjudged to Ds. ————

Two silver cups, with appropriate inscriptions, value £6. each, left by Dr. Robert Greene, of Tamworth; the first as the reward of regularity of conduct, the second of general learning.—The first was last year adjudged to Ds. Ward, the second to Ds. Harris.

A prize appointed by the present society for the best reader in chapel.—Last year adjudged to Punnet.

There is also an annual examination immediately before the division of the Easter term, when those who distinguish themselves are rewarded with a prize of books, bearing the college arms.

PRIZE-MEN, May 1821.

Senior Sophs,—Harris, Ward.

Junior Sophs,—Backhouse, Punnet.

Freshmen,—Tecson, Cory.

PEMBROKE HALL.

(FOUNDED 1343.)

A Copy of the Statutes in the British Museum, MSS. HARLEY, *No.* 7034, *P.* 124.

The Fellowships at this college, sixteen in number, *viz.* *fourteen Foundation and two Bye Fellowships (one founded by Bishop Lany, the other by W. Smart, Esq. of Ipswich) are open to men of all counties in this kingdom, with the following restriction: that there shall not be more than three Fellows of any one county.

* One of these was founded by Archbishop Grindall, formerly Master of this college, and a preference is given by will of the founder to one educated at St. Bee's School, Cumberland.

Six of the Fellows must be in Deacon's or Priest's orders, and a candidate for a Fellowship is never considered as superannuated. There are also several Scholarships belonging to this society, worth from £6. to £10. per annum; and three given to Sizars of the value of £12. per annum each. Besides these, there are six founded by the Rev. Charles Parkin, formerly rector of Oxburgh, Norfolk, for superannuated scholars from Merchant Tailors' School, and for one scholar educated at the Free School of Bowes in Yorkshire; the value of each is £40. per annum, and may be held seven years. In case there are no claimants, they are, without any restriction, in the gift of the Master; one £50. per annum, left by Dr. Stuart, for a superannuated scholar of Merchant Tailors' School; also others of £30. each, left by Serjeant Moses, to scholars chosen from Christ's Hospital. These Scholarships have lately been raised to £40.

Dr. Long, formerly Master of this college, erected a sphere, and ordered that the keeper of the key should be allowed £6. per annum, which is always bestowed upon an undergraduate.

There is annually a Classical examination of the Junior Sophs and Freshmen, at the division of the Easter term, when prizes in books are given to the best proficients in each year.

GONVILLE AND CAIUS COLLEGE.

(Founded 1348.)

A Copy of the Statutes in the University Library, Mss. Mm. 4, 20.

In this college there are twenty-nine Fellowships; twelve are called Senior Fellowships, being all that were founded at the time of the second charter granted to Dr. Caius in 1558; of these, three are of the old foundation, open to all counties, and to laymen; three founded by Dr. Caius, to be possessed by Norfolk men, two of whom must be Physicians; and the remaining six all by different founders, two confined to the Norwich diocese, and the other four open to all counties; one of the six is open to laymen. In all the Senior Fellowships which are not particularly confined, there is, in case of equality between the candidates, a preference given by statute to those who are born in the Norwich diocese. Eight are termed Junior Fellowships, open to all counties, and likewise to laymen, except one, which must be held by a Priest born in the Norwich diocese; from these eight the Senior Fellows are elected. Of the remaining nine, six were founded by Dr. Perse, open to all counties, and to laymen, with a preference to scholars educated three years at the Free Grammar School founded by him in Cambridge, and afterwards elected to a Perse

Scholarship; and three by Mr. Wortley, one of which is confined to Devon, and one to Norfolk. There are also seventy-seven Scholarships, of which ten are confined to the natives of the city of Norwich, twenty-six others to the Norwich diocese, three to the natives of London, two to Cambridge, two to Hertfordshire, one to Bedfordshire, one to Canterbury, one to a person educated at some school in London or Westminster, and the remaining thirty-one are open to all counties. There are likewise fourteen Exhibitions, of different value, which are given in addition to the Scholarships.

There is also a Scholarship in Chemistry of £20. per annum, founded by Mr. John Micklebourgh, formerly Professor of Chemistry in this university; and four Studentships, now above £100. per annum each, founded by * C. Tancred, Esq. for Students in Physic; whenever a vacancy occurs, the successful candidate, if of another college, is obliged to remove to Caius. These students are required to take the degree of Bachelor in Physic as soon as they are of sufficient standing for the same, and they may hold the Studentships for three years after their degree. Those therefore who are elected previous to admission at any college, can hold them eight years. The present possessors are, Lamb, Roupell, Arnold, and Poole.

The electors to the Studentships are, the Masters of Christ and Caius college, the President of the College of Physicians, the Treasurer of Lincoln's Inn, the Master of the Charter-House, and the Governors of Greenwich and Chelsea Hospitals.

ANNUAL PRIZES.

Plate to the value of £10. for the best proficient in Mathematics amongst the commencing Bachelors of Arts.

There is an annual examination of the Junior Sophs and Freshmen at the division of the May term, when

* C. Tancred, Esq. (he died August 1754) also founded four Studentships of nearly the same annual value, appropriated to Law, to be held ONLY by Students of Lincoln's Inn, who are not required to be Members of the University.

two prizes in books, of five and three guineas value, are given to the two best proficients in Classics of the two years.—Last year adjudged to Guest and Ayre.

The Mathematical examination is at the end of the October term, when two of the like value are given to the two best in Mathematics among the Sophs; and two others of the same value to the two best in Mathematics among the Junior Sophs.

TRINITY HALL.

(Founded 1350.)

Copies of the Statutes in the British Museum,
Mss. Harley, *No.* 7029, *P.* 385.

At this college, more peculiarly appropriated to the study of Civil Law, there are twelve Fellowships, unrestricted as to counties. Bishop Bateman, the founder and noble benefactor of this institution, originally intended to have augmented the number to twenty; but dying before the designed foundation was completed, (*viz.* A.D. 1355, at Avignon,) his legacy was only deemed sufficient for the maintenance of a Master, three Fellows, and two Scholars. The nine remaining Fellowships were founded by the following benefactors:—Two by Simon Dalling, Esq. three by Bishop Nix, one by Robert Goodnape, Esq. one by Dr. Hewke, one by Dr. Mowse, and one by the college. The Fellowships are usually held by those who have taken their degree in Law, though Bachelors of Arts, who are within one year of taking the degree of M.A. and Students of three years' standing in Civil Law, are eligible.

The Scholarships, worth 10*s.* 6*d.* per week each, are fourteen in number; two founded (as before mentioned) by W. Bateman, Bishop of Norwich, one by Simon Dalling, Esq. one by Mr. Spycer, two by Bishop Nix, one by Lawrence Mapetyde, one by Gabriel Dunne, Esq. two by Dr. Hervey, one by Archbishop Parker, two by Dr. Busby, and one by Dr. Mowse. There are also two, value £17. per annum each, on a different foundation; and likewise a provision of about £60. per annum annexed to the offices of Chapel Clerk and Librarian, to which a Sizar is usually nominated.

ANNUAL PRIZES

Are given in books to the best proficients at a general examination.

Prizes are also given for the best English and Latin Declamations.

CORPUS CHRISTI COLLEGE,

Commonly called BENE'T COLLEGE,

(FOUNDED 1351.)

Copy of the Statutes in the University Library, MSS. GG. 4, 8.

At this college there are twelve Fellowships; six unrestricted, four appropriated to the county of Norfolk, and two to the city of Norwich. All the Fellows are required to take orders within three years after their election, and B.D. within eight years after the degree of M.A.

The Scholarships and Exhibitions are as follow:

* Nine on the old foundation, not appropriated.

Three 1567, two 1569, by Archbishop Parker; patrons, the Mayor and Aldermen of Norwich. The

* All the Scholarships, to 1618 inclusive, vary from 1s. to 2s. 3½d. a week; and to those founded in 1567, 1569 (except that founded by Meres) 1574, and 1577, nine rooms are appropriated.

NOTE.—All the Scholarships marked § were founded by Archbishop Parker, and to those with the asterisks preceding the Master and Fellows are the patrons.

former are appropriated to men born at Norwich; the latter to natives of Norwich, Wymondham, or Aylsham, students of their respective schools.

§ Three, 1569.—The right of nomination belongs 1st. To the Dean and Chapter of Canterbury, who are to appoint such sons of their Norfolk, Suffolk, and Lincolnshire tenants as are educated at the school of that city. 2dly. To the Dean and Chapter of Westminster, for students from Westminster school. 3dly. To the Master and Fellows, for students from any seminary in the province of Canterbury.

§ Two, 1569, patrons, the Dean of Canterbury and the Master of Eastbridge Hospital, appropriated to natives of Kent, educated at Canterbury school.

§ One, 1574, patrons, the Mayor and Aldermen of Norwich; appropriation the same as in the other scholarships of this patronage.

* One, 1652, by John Meres, appropriated to a native of Cambridgeshire.

Six, 1577, by Sir Nicholas Bacon, Lord Keeper; patrons, 1st. Heirs male of Sir Nicholas, with the advice of a Fellow sent by the college, and the Master of Redgrave school. 2dly. The Master and Fellows. Appropriation, 1st. To students from Redgrave school. 2dly. In default of such, to any students.

Three, 1580, by John Parker, Esq.; patrons of one, the Archbishop of Canterbury; of the other, the Master and Fellows. Appropriation, the Archbishop to appoint a native of Canterbury, from the school there; the Master and Fellows, natives of Aylsham and Wymondham, educated at their respective schools.

Four, 1595, by Roger Manners, Esq. unappropriated; patrons of three, the Master and Fellows; of the fourth, the Master only.

* Three, 1618, by Alice Caston, not appropriated; the names of Caston, Clenche, Brownrig, and Amfield, to have a preference.

* One, 1636, by John Borage, value £5. a year; the name and kindred of the founder to be preferred; in default of such, a native of Norfolk or Norwich.

* One, 1659, by Edward Colman, value £20. a year; appropriated to one or more of the founder's name; in default of such, to four scholars from Norwich and Wymondham schools.

* Two, 1677, by Archbishop Sterne, value £10. a year each; appropriated to natives of York and Mansfield; 2dly. to natives of the York diocese.

One, 1693, by Dr. Spencer, the Master patron; value £10. a year, not appropriated.

* Three, 1700, by Samuel Chapman, value 1*s.* a week.

* Four, 1766, by George Sykes, value £10. a year each; appropriated to students from St. Paul's school.

One, 1781, by John Stock, Esq. patrons, Governors of St. Paul's school; value £30. a year, with the accumulation during a vacancy, except £15. paid to the college; appropriated to a student from St. Paul's school.

* Twelve, 1794, by Bishop Mawson, given to such students as excel in an annual examination; present value, eight of £30. four of £40. a year each.

MANUSCRIPT LIBRARY.

The valuable manuscript library, left by Archbishop Parker to this college, is under the following particular restrictions:—Every year, on the 6th of August, it is to be visited by the Master or locum-tenentes of Trinity Hall and Caius, with two scholars on Archbishop Parker's foundation, and if on examination of the library, twenty-five books are missing, or cannot be found within six months, the whole collection devolves to Caius. In that case, the Masters or locum-tenentes of Trinity Hall and Bene't, with two scholars on the same foundation, are the visitors; and if Caius college be guilty of the like neglect, the books to be delivered up to Trinity Hall; then the Masters or locum-tenentes of Caius and Bene't, with two such scholars, become the inspectors; and in case of default on the part of Trinity Hall, the whole collection reverts back to its former order.

KING'S COLLEGE.

(FOUNDED 1441.)

Copies of the Statutes in the British Museum, MSS. HARLEY, *No.* 7332.—*A Specimen in the University Library*, MSS. BAKER, *Vol.* 32, *P.* 219.

This royal foundation consists of a Provost and seventy Fellows and Scholars; the latter are supplied by a regular succession from Eton college, which was founded and endowed about the same time, by King Henry VI. The society of Eton now consists of a Provost, seven Fellows, and seventy Scholars; and the average of vacancies at King's, from the first foundation of the college, A. D. 1441, is nine in the course of two years. The time of electing scholars into the royal foundation of Eton, is about the end of July or beginning of August; at which time a general examination as to their proficiency in classics takes

place, before the Provosts of each college, the Vice-Provost and Head-Master of Eton, and two *posers* or examiners nominated by King's. After such examination the scholars are placed in the order of their future succession to King's, and on a vacancy in the latter, they are admitted upon that foundation; and after the expiration of three years from the day of their admission, they are chosen *Fellows.

Some *peculiar* privileges appertain to King's. The Provost has absolute authority within the precincts; and by special composition between this society and the university, its undergraduates (under certain restrictions) are exempt from the power of the Proctors and other University Officers, within the limits of the college; neither by usage do they keep any public exercises in the Schools, or are any way examined for their Bachelor of Arts' degree.

ANNUAL PRIZES.

Dr. Cooke (formerly Provost) left six pounds to such scholar or scholars as shall be adjudged to have deserved well by application to their studies and general orderly behaviour.—Last year adjudged to Wilder, Maturin jun. and Packe.

Dr. Glynn bequeathed twenty pounds, to be equally divided towards the end of Easter term, between such scholars of the said college, as have in the course of the year been most distinguished for learning and regularity of conduct.—Last year adjudged to Evans and Wilder.

There are also two five pound prizes for declamations, left by Dr. James.

* This and Trinity Hall are the only colleges at which undergraduates can be elected Fellows. Here, however, they are obliged to take both Bachelor's and Master's degree in the university when of sufficient standing; or otherwise they will not be entitled to the full proportion of their dividend.

This college was founded by the two Queens, Margaret of Anjou, Consort of Henry VI. (in 1446),† and Elizabeth Widville, Consort of Edward IV. (in 1465.)‡

There are nineteen Foundation Fellowships. One founded in 1470, by Mr. Syday; one in 1471, by Mr. Mark; one in 1471, by Mr. Otwar; one in 1477, by Mr. Collinson; five in 1478, by Lady Roos; one in 1478, by Lady Borough; one in 1479, by Mr. Green; one in 1480, by Mr. Alfrey; one in 1489, by Lady Wyche; one in 1491, by Lady Inglethorpe; two in 1494, by Mr. Drewel; one in 1495, by Mr. Barby; one in 1503, by Mr. Trotter; one in 1504, by the College.

* Such parts of the Statutes as relate to the election of the President and of the Fellows, and their restrictions and privileges, are printed in "The case of the President of Queen's College." London, 1821.

† Pat. 21 Aug. 25 Hen. VI. ‡ Pat. 25 Mar. 5 Edw. IV.

This number may be increased or diminished under certain circumstances pointed out by the statutes. The admissions to these Fellowships are restricted as follows:—In general, there can be only *one* Fellow of a county and *two* of a diocese. Middlesex, however, has a title for two Fellows, which (though not in the statutes) was declared valid by the Lord Chancellor, giving judgment for the Visitor, in 1821: there may be also two Fellows for any county in which the college has property sufficient for the maintenance of a Fellow; this privilege is said to include Cambridgeshire, Essex, Huntingdonshire, Kent, and Surrey. There may be three Fellows for the diocese of Lincoln; there may be also three Fellows for the diocese of York, the third (Trotter's Priest) being admitted upon a particular foundation. By an "Interpretation" of the statutes of 1537, (sanctioned by royal visitations in 1548 and 1559,) Wales ranks as one county and one diocese, Durham is considered as part of Northumberland, and Rutland as part of Northamptonshire. All the Fellows within four years from commencing B.A. must proceed to M.A.; those who are on the ecclesiastical foundation must, within nine years from M.A. proceed to B.D. Trotter's Priest must be in Holy Orders at the time of his election, and, by the will of his founder, is required to preach in York cathedral in the fifth year of his regency. Only two Fellows may remain Laymen, who proceed to M.A. like the rest, and within twelve years from M.A. the one must proceed to LL.D. the other to M.D. The Vice-President and the five Seniors hold their Fellowships with property; the others recede from the society when possessed of a real annual income to a certain amount. The five senior Divines may hold livings not exceeding £20. and within 26 miles of Cambridge. On the petition of the society, the Crown has frequently *dispensed* with some of the above restrictions.

A Bye-Fellowship was founded in 1694, by D. Edwards, gent. This is perfectly open, may be held by a Layman, and is tenable with any property or preferment, except ecclesiastical to a certain amount.

It has sometimes been made a step to advancement on the foundation. Edwards' Fellow has no vote in the society, and his privileges consist chiefly in a title to rooms and commons.

Here are several Scholarships, perfectly open to all counties, most of which have been consolidated, and now consist of small weekly payments, distributed among the undergraduates according to residence. Two Scholarships (Sedgwick's) are in the sole appointment of the President, their value is £15. per annum; one scholar must be a native of Bucks. the other of Northamptonshire; sons of poor clergymen are to be preferred. The President also appoints a Librarian and a Bible-Clerk.

CATHARINE HALL.

(FOUNDED 1475.)

A Copy of the Statutes of this College is not known to be lodged in any public repository.

This college or hall was founded by Robert Woodlark, D.D. Chancellor of the University and Provost of King's college, for a Master and three or more Fellows. Accordingly, the Visitors who were sent down to the university by King Edward VI. ordained, that there should be then six Fellows, and that for the future there should be a greater or less number in proportion to the revenues of the college. The Fellows

must be natives of England, and there cannot be more than two of the same county at the same time; two of them at least must be in Priest's and one in Deacon's orders. Whenever a vacancy occurs, the senior who is not in such orders must take them in the course of a twelvemonth, unless a junior does of his own accord, or he vacates his Fellowship.

There are also eight Bye Fellowships, founded by subsequent benefactors:—

One by Mr. Frankland, which is appropriated to a man educated at Coventry school; and the Master and Fellows, who are the electors, are required by the founder to have a careful regard to the recommendation of the Mayor and Aldermen of Coventry.

One by Mr. Holwey, which is called the Conduct Fellowship.

Six by Mrs. Mary Ramsden, with a preference first to natives of Yorkshire, then of Lincolnshire; and in case no such candidates duly qualified offer themselves, they are open to men of any county. They are not required to take Orders. All persons are ineligible to these Fellowships who are 24 years of age. The Fellows on this foundation are called Skirne Fellows.

Mrs. Ramsden also founded ten Scholarships, with the same preference to Yorkshire and Lincolnshire men, which are now £35. per ann. each, with chambers rent free.

Mr. Frankland also founded one of £10. per ann. which is appropriated to a person educated at Tamworth school.

Mr. Holwey founded two of £6. per annum each, which are appropriated to persons educated at Eton or Merchant Tailors' School.

There are also three Scholarships of £20. 14*s.* 4*d.*—eight of £25.—one of £12.—five of £5.—seven of £4.—two of £3. 6*s.* 8*d.*—two of £2. 13*s.* 4*d.*—and two of £2. per annum each; all perfectly open.

Bishop Sherlock founded the Librarianship, worth £20. per annum, with rooms rent free. He also considerably augmented the salary of the Master's Sizar, present value £32. per annum. The Chapel Clerk receives £20. per annum.

ANNUAL PRIZES.

Books to the value of £5. are given on the Thursday preceding the division of Midsummer term, to the best proficient in Classics on Mrs. Ramsden's foundation. —Last year adjudged to Camidge.

JESUS COLLEGE.

(Founded 1496.)

A Copy of the Statutes in the University Library, Mss. Gg. 3, 42, *and the British Museum*, Mss. Harley, *No.* 7044, *P.* 1.

The number of the Foundation Fellowships at this college is sixteen; five of the original foundation, four founded by Dr. Fuller, Master of the college, and the rest by various benefactors. Six of the Fellows are required to be in Priest's orders. The restrictions here are, that eight shall be held by persons born in the northern, and eight by those in the southern counties. Leicestershire, Worcestershire, Wales, Nottinghamshire, Warwickshire, Derbyshire, Lancashire, Cheshire, Staffordshire, Yorkshire, Cumberland, Westmoreland, Northumberland, and Durham, are considered in the northern division; all the rest southern. On every vacancy of a Fellowship, the Master and Fellows nominate two candidates, of whom the Bishop of Ely elects one. There is one Fellowship founded by James Stanley, Bishop of Ely, to which the Bishop has an exclusive right both to nominate and appoint. If when this Fellowship becomes vacant, the Bishop chuses a person of that side on which there is already the full number, the next vacancy on that side is supplied by a candidate from a county on the opposite side. The Mastership of this college is in the absolute appointment of the Bishop of Ely.

The following is a list of the principal Scholarships and Exhibitions, founded by different benefactors:—

Four, £10. per annum each, appropriated to natives of Nottinghamshire and Yorkshire.

Eleven, from £40. to £50. per ann. each, for clergymen's orphans of all counties in England and Wales. The possessors of these Scholarships, founded by Tobias Rustat, Esq. have a classical examination annually

on the Thursday in Easter week, at which time, according to their respective merits, a gratuity to each from £20. to £30. (included in the above sum) is given. The visitors are, the Vice-Chancellor, the Provost of King's, the Master of Trinity, and the Master of Jesus; and in case of the non-attendance of any of these four, the Master of St. John's.

One, £40. per annum or thereabouts, to the son of a living clergyman, with preference to a native of Nottinghamshire or Lancashire. The possessor of this Scholarship is subject to the same examination and rules of residence as the Rustat, but receives no gratuity.

One, £15. per annum or thereabouts, to the son of a clergyman, with preference to an orphan, equally open to all counties. Examination and rules of residence similar to the Rustat, but no gratuity.

Three, £8. per ann. each or thereabouts, open to all.

One, £2. per annum, open to all.

One, £10. per annum or thereabouts, for a scholar from Doncaster or Arksay Free Schools.

Two, £70. per annum each, for persons educated at Seven Oaks and Tunbridge Schools.

Two, £16. per annum each, left by Dr. Gatford, open to all clergymen's orphans, and tenable from the degree of B.A. to that of M.A.

One, £6. 8*s.* 6*d.* per annum, for persons from Caistor, Louth, or Alford Schools.

One, £3. 6*s.* 8*d.* per annum, to a native of Lancashire, Hereford, Cumberland, or Essex.

Two, £4. 10*s.* per annum each; one to the county of Anglesea or Merioneth; the other of St. Peter the Poor or St. Foster, in London.

One of £60. or two of £30. per ann. or thereabouts, to persons educated at Loughborough School.

Fifteen Foundation, value £3. per annum each, or under, according to residence, open to all counties.

ANNUAL PRIZES.

Books to the value of £6. for the best Latin and English Declamations. This year adjudged to Austin and Walters.

£20. per ann. to one or more deserving Bachelors. Of this sum £10. in plate, to the best proficient in mathematics, if a Wrangler; or £6. in books, if a Senior Optime.—The former prize this year adjudged to Ds. Greenwood.

There is an annual examination in Classics, of the Junior Sophs and Freshmen, at the division of the Easter Term:—

CHRIST COLLEGE.

(Founded 1505.)

Copies of the Statutes in the British Museum, Mss. Harley, *No.* 7046, *P.* 155.—*Ditto, No.* 7044, *P.* 61, *Ditto, No.* 3838, *and No.* 7362.

This college was originally founded (1456) by Henry VI. under the name of God's House; and consisted of a Master, three Fellows, and twenty-five Scholars. The building occupied the present site of King's College Chapel, and was removed to make room for that noble structure to its present situation.

In 1505, Lady Margaret, Countess of Richmond and Derby, mother of King Henry VII. changed the name, incorporated the former society and its revenues with the present college, and endowed it liberally, to maintain a Master and twelve Fellows. This foundation is for Divinity, and the Fellows are required to take Priest's orders within twelve months after they have attained the proper age. The only appropriation of these Fellowships is to the counties of England and Wales; and the restrictions are, that there shall not be two natives of the same county Fellows at the same time, and that there shall be *six*, and only *six*, of the following nine counties, *viz.* Northumberland, Cumberland, Durham, Westmoreland, Lancashire, Derbyshire, Nottinghamshire, Yorkshire, and Richmond, (this *cum adjacentibus* the Countess calls a county.)

King Edward VI. added another Fellow, who shares in emoluments with those on the original foundation. He may be of any county, and is not obliged to take Holy orders.

Sir John Finch and Sir Thomas Baines founded two more Fellowships, unappropriated as to county, but with preference to the kindred of the founders; the revenues are independent of the college. They may be held by laymen.

These fifteen Fellows have an equal claim to the college patronage, and are allowed by the statutes to hold preferment with their Fellowships, provided it does not exceed the value of ten marks, after the deductions found in the *Liber Regis*. By Queen Elizabeth's licence, the five senior Clerical Fellows are empowered to hold any livings with their Fellowships, provided they are below £20. in the *Liber Regis*, and *infra viginti miliaria Cantabrigiensis Academiæ;* which has been construed by a visitor of the college (1792) to mean, "All livings, of which any one point of the parish does not exceed the distance of thirty-one miles and a half from the nearest house in Cambridge, the said distance being measured upon an horizontal geometrical straight line."

Lady Margaret founded forty-seven Scholarships of two shillings, now augmented to twelve shillings per week during residence. Three persons only of the same county can be Scholars at the same time.

Besides these, twenty-five other Scholarships have been founded by private benefactors, appropriated as under:—

Six, to scholars educated at Giggleswick school, Yorkshire.

One, to a scholar from Upton school, Hunts.

Three, to persons coming from Kirby Lonsdale school, Westmoreland.

One, to a scholar from Brentwood, Malden, or Chelmsford schools, Essex.

One each, to natives of Newmarket and Huntingdon.

One each, to persons born in the counties of Durham, Suffolk, and Bedford.

Three, to persons born in the county of Norfolk.

Four, value £12. per annum each, for scholars educated at Buntingford grammar school.

Six, open to all schools and counties.

Christopher Tancred, Esq. founded four Divinity Studentships, which now amount to upwards of £100. per annum, and are tenable till M.A. The present possessors are, Stoddart, Ramsden, Sams, and Cobb.

N.B.—For the electors to these Studentships see Caius college.

He likewise founded a Scholarship for a native of Newmarket, or in failure thereof to the county of Cambridge.

Dr. Porteus, late Bishop of London, in 1807, transferred stock to the amount of £1200. the interest of which is to be expended in the purchase of three gold medals, to be contended for by the students of this college, in the following order:—One medal of 15 guineas for the best Latin Dissertation on some evidence of Christianity; another of 15 guineas for the best English Composition on some Moral Precept of the Gospel; and one of 10 guineas to the most distinct and graceful reader in, and regular attendant at, chapel.—The prize for the Latin Dissertation was last year adjudged to Baldwin; for the English Dissertation to Baines; and the reading prize to Kerrich.

ANNUAL PRIZES.

There is an annual examination of the Junior Sophs and Freshmen, and two prizes of books, of three and two guineas value, are awarded to the two best proficients in each year.

§ The college nominates two Fellows, Lord Berkeley must present one of them.

ST. JOHN'S COLLEGE.

(FOUNDED 1511.)

Copies of the Statutes in the British Museum, Mss. HARLEY, *No.* 7050, *and in the University Library*, Mss. BAKER, *Vol.* 29, *P.* 1.

This college was founded by Lady Margaret, Countess of Richmond and Derby, mother of King Henry VII. and foundress of Christ college. The original endowment was for fifty Fellows; but part of the foundation estates having been seized by King Henry VIII. the funds were found to be sufficient for thirty-two only. These are now open to natives of England and Wales, *without any restriction or appropriation whatsoever.** One of them, however, is in the appointment of the Bishop of Ely, but he is to elect according to the statutes in every respect, agreeably to an arrangement between James Stanley, Bishop of Ely, and the executors of the Countess of Richmond. In this case the Master is visitor to the Bishop.

There are also 21 founded by different benefactors, which have all the privileges of the other Fellowships, and an equal claim to the College Patronage.

Candidates for Fellowships must be B.A. at least; and no person is superannuated, provided he has proceeded regularly to his degrees. This being a divinity college, the Fellows are obliged to be in Priest's orders within six years from the degree of M.A. except four, who are allowed by the Master and Seniors to practise Physic and Law. The rest must proceed to the degree of B.D. at the regular time. The electors are, the Master and eight Senior resident Fellows, in whom is vested the entire management of all college concerns; and the day of election is the second Monday after Mid-lent Sunday.

The following are the founders of the appropriated Fellowships:—

Four by Mr. Ashton; two appropriated to the county

* By letters patent from his present Majesty.

of Lancaster or diocese of Chester; one to the county or diocese of York; and one to the bishoprick or diocese of Durham.

One by Mr. Bailey, which was augmented by his executor, to the parish of Tamworth, or the county of Stafford or Derby, or the diocese of Lichfield and Coventry. The person elected must be a Priest at 24 years of age, or within twelve months after.

Two by Mr. Beresford, to the name and kin of the founder; then to the parishes of Chesterfield, Wirksworth, and Ashbourne, Derbyshire; or Alconfield, Staffordshire; and next to the counties; and for default of such, to the most apt and able within the university, after the form of the statutes of the college.

One by Sir M. Constable, to a priest of the county of York.

One by Bishop Dee, to his name and kin, from Peterborough or Merchant Tailors' Schools.

One by Dr. Fell, to Forness Fell, Lancashire.

Two by Mr. Gregson, one to the county of Lancaster, and one to the county of Norfolk.

One by Mr. Heblethwaite, and two by Dr. Lupton, to be chosen from scholars on their foundation from the Free Grammar School of Sedbergh, Yorkshire.

Two, Dr. Keyton, to the choristers of Southwell, Notts.

One by Lady Rokeby, to Beverley, or the county of York. The person elected must be in Priest's orders within six months after election.

One by Mr. Halytreholm, to Beverley, or any place in the county of York, adjacent to the same. The Fellow must be in Priest's orders within twelve months from the time of election.

One by Mr. Simpson, to Cumberland, Northumberland, Westmoreland, or Richmond in Yorkshire.

One by Dr. Thimbleby, to the county of Cambridge.

To most of the preceding appropriations, however, is added the following or a similar limitation:—"If any such person in learning and manners be found, and virtuous and disposed to learning, &c." and in default of these qualifications, then the said Fellows

to be chosen of such persons "as be most singular in manners and learning, of what county soever they be, and be then abiding in the said college and university."

In addition to the preceding Fellowships, there are three founded by Mr. Platt, which have been increased by the college to nine, open to all candidates, but perfectly distinct from the rest. These Fellows are not entitled to the same privileges as the others; they cannot hold any college office, or succeed to a foundation Fellowship or living.

The number of Scholarships at this college is one hundred and fourteen; four of which, founded by Mr. Platt, have been since increased by the college to nine; and are tenable, like the Fellowships founded by him, by candidates born in any country. Nine likewise, founded by the Duchess of Somerset, have been augmented by the society to sixteen, and are appropriated to men educated at Manchester, Hereford, or Marlborough schools. The remainder unappropriated, by various benefactors.

There are also a considerable number of Exhibitions of different value, the principal of which are the following:—

One, about £100. and two £15. per annum each, founded by Mr. Nadin, for students in divinity; founder's kin, or men born in the province of Canterbury.

One, £16. per ann. left by Mrs. Jones, to her kindred or natives of Shropshire.

Two, about £10. per annum each, founded by Mr. Robins, to founder's kin or men born in Kent.

Two, £20. per ann. each, for scholars from Grantham School, Lincolnshire.

Four, about £12. per ann. each, left by Mr. Hewytt, for scholars from Linton School, Yorkshire.

Two, about £10. per annum each, by Dr. Gower, for clergymen's sons, with preference to those educated at St. Paul's, London, or the Free School, Dorchester.

Four, about £15. per annum each, by Archdeacon Johnson, for scholars educated at Oakham or Uppingham School.

Thirty unrestricted, about £20. per ann. each, left by Sir Ralph Hare, Knight of the Bath.

Six, about £10. per annum each, left by Mr. Baker, with preference to founder's kin.

Four, about £15. per annum each, for scholars from Shrewsbury School.

Three, about 7*s*. per week during residence, by Mr. Mount Stephen, with preference to scholars from Peterborough School.

Four, £70. per annum each, for seven years, for scholars from Shrewsbury School.—Electors, the trustees of that school.

One, £17. a year, to a boy educated at some school in Shropshire.—Patron, Wm. Cludde, Esq.

Mr. Wright left about £120. per ann. to be disposed of at the discretion of the Master and four Seniors.

Sir Isaac Pennington directed by his will that good Exhibitions should be given to students born in the parishes of Hawkshead and Colton. Their number and value are at the discretion of the Master and Seniors.

A sermon is preached by one of the Fellows every year at Hatfield, the second Sunday after St. Michael, and at Burleigh on the Sunday after St. Luke.

All livings under £30. in the King's books, are tenable with College Preacherships, which are thirteen in number.

ANNUAL PRIZES.

£5. to the best proficient in Moral Philosophy, among the commencing Bachelors of Arts, whose names have appeared in the list of honors. The examination and decision of the prize are usually before the publication of the first Tripos. The Master appoints the examiner.

Those who are in the first class at two general examinations, one about the 16th of December, the other about the 6th of June, are entitled to a prize of books.

Those also whose Themes and Declamations are thought deserving of notice receive a similar reward.

About the sum of £100. is allotted annually for the above purposes.

The Rev. W. Wilson has given prizes of books to the best readers of the lessons, whose general good conduct entitles them to the approbation of the college.

MAGDALENE COLLEGE.

(FOUNDED 1519.)

A Copy of the Statutes in the British Museum, MSS. SLOANE, *No.* 3644—10.

In this college there are four Foundation and thirteen Bye Fellowships, which (two excepted) are equally unrestricted as to counties. All the other Fellows are required to take Orders within three years after election "*si ita Magistro videatur bonum.*"

The Foundation Fellowships were left by Lord Audley. The Bye Fellowships were founded by the following benefactors:—

Two by Mr. Smith, and an estate at Longstanton, Cambridgeshire, left for their maintenance; the Fellows receive at present £25. per annum each, and are obliged, by the will of the founder, to proceed to the degree of B.D. at the regular time. *(a)*

Two by Dr. Goch, may be held by laymen, if the Master pleases. *(b)*

Two by Mr. Dennis, ditto. *(c)*

Two by Sir Christopher Wray, ditto. *(d)*

One by Lady Ann Wray, ditto. *(e)*

One by Mr. Spendluffe, tenable for five years only. *(f)*

One by Dr. Millington, appropriated to Shrewsbury School. *(g)*

One, a Travelling Fellowship, left by the Rev. Drue Drury, worth upwards of £100. per ann. but tenable for only nine years, and appropriated to the county of Norfolk. The Master has the sole appointment to this Fellowship, and the person must be either in holy orders or designed for such. *(h)*

One by the Countess of Warwick. *(i)*

Mrs. Margaret Dongworth, by a legacy, augmented four of the smallest Bye Fellowships.

The Mastership of this college is in the gift of the possessor of the estate at Audley End.

The following Scholarships were founded by the undermentioned benefactors:—

No.		£.	*s.*	*d.*	
4	J. Millington, D.D. appropriated to natives of Shropshire	63	0	0	per annum each.
2	Mr. J. Millington, appropriated to natives of Shropshire	20	0	0	
2	Mr. Holmes, to scholars from Wisbech school	63	0	0	
3	Mr. Milner, to Leeds, Halifax, and Heversham schools	40	0	0	
4	Mr. Groom	10	0	0	
2	Ditto	8	0	0	
2	Mr. Hughes	0	2	8	per week each.
3	James Duport, D.D.	0	2	8	
6	Sir Christopher Wray	0	2	8	
2	Lady Ann Wray	0	2	8	
3	William Roberts, Esq	0	2	8	
2	Countess of Warwick	0	2	8	
6	Mr. Smith	0	2	8	

For the preceding Scholarships, paid weekly, different sums were left by the respective founders, which it has been thought proper to equalize.

In default of Shropshire men, the Scholarships on Dr. Millington's foundation are tenable for two years by natives of any county.

The Chapel-Clerk receives £12. per ann.—The two waiting Sizars, one £4. the other £2. per ann.

The foundation estate of Lord Audley consists of the impropriate parsonage of St. Catharine Cree Church, in London; and also a considerable part of the city, anciently called Covent Garden Christ Church.

ANNUAL PRIZES.

Books to the amount of five or six guineas to the best proficient in each of the two first years, at the annual examination in Classics and Mathematics.—Last year adjudged to Hall.

An English Declamation prize, value five guineas, given by Lord Braybrooke.

A Latin Declamation prize, value three guineas.

A prize, value two guineas, instituted by the late Master, for the best reader in chapel.

TRINITY COLLEGE.

(FOUNDED 1546.)

Copies of the Statutes in the British Museum, MSS. SLOANE, *No.* 659, *Plut.* III. C.—*University Library*, BAKER'S MSS. *Vol.* 29, *S.* 4, *P.* 179, *and Ditto*, *Vol.* 21, *S.* 14, *P.* 277.—*Ditto*, MSS. HARLEY, *No.* 3890.

This noble and magnificent college, the Mastership of which is in the appointment of the Crown, was originally endowed by King Henry VIII. and afterwards augmented by his daughter Queen Mary, for the maintenance of a Master, sixty Fellows, and sixty-nine Scholars.

The government of the college is vested in the Master and the eight senior Fellows; and to such of these as are absent, the resident Fellows next in seniority are considered as deputies, without any express appointment.

The Fellows of this society are chosen from the Scholars, ineligible if M.A. or of sufficient standing to take that degree; no appropriation whatsoever; all required to go into Priest's Orders within seven years after they commence Masters of Arts, except two, who are appointed by the Master, and permitted to remain Laymen. The one is supposed to study Law, the other Physic. The Scholarships are open to men of any county, except three or four, which are appropriated to scholars chosen annually from Westminster school; and one of £37. per annum, founded by Mr. Newman, for a native of Kent and Cambridgeshire alternately; at present filled by a Cambridgeshire man.

Of the value and number of the Exhibitions, the following is a statement:*

† Four, Dr. Lewis, £8. 6*s*. per annum each, to four scholars who are natives of North Wales.

* Exhibitions marked † are paid by the Representatives of their respective founders.

One, Lady Jermyn, £7. 10*s.* to the payment of which Scholarship a non-resident Bachelor is equally entitled. Appointed by the Master.

One, Mr. Elwes, £6. for a scholar appointed by the Master.

Five, Mr. Perry, £10. per annum each, to scholars from St. Paul's School, London. If the number is incomplete, the £50. is shared equally amongst them.

† One, Mr. Hope, £3. 8*s.* 8*d.* for scholars from Lynn School.

† Two, Lady Verney, (estate at S. Littleton,) for scholars from Cranbrook or Warwick School.

Various benefactions, to the amount of £136. are consolidated and divided among the resident Sizars; to whom also all Noblemen pay two guineas, and Fellow Commoners one guinea each per quarter.—There are only sixteen Sizars upon the foundation, who are entitled to commons, rooms, and the principal part of the emoluments: to these the supernumerary Sizars succeed in the order of their places in the classes at the annual examinations.

ANNUAL PRIZES.

Dr. Paris left a prize of £4. for the best Latin Declamation. The successful student delivers on the 6th of December (the day after the audit) a panegyric upon some illustrious character. A second Latin Declamation prize has been instituted by the college.—These prizes were last year adjudged to Boileau and Malkin.

Dr. Hooper left three silver goblets as prizes, one of £10. the other two £5. value each, for the three best English Declamations, upon subjects relating to the History of England. The person who gains the first prize, delivers on the Commemoration-day another declamation on a general subject.—Last year adjudged to Buckle, Mr. Strutt, and Malkin.

Any junior Bachelor of Arts who writes the best Essay on the conduct and character of King Wm. III. is entitled to a prize of £10. left by Mr. Greaves, of Fulbourn.—Last year adjudged to Ds. Barker.

Dr. Walker gave £10. to purchase books for one or more poor Scholars, who shall appear to the Master,

Vice-Master, and Senior Dean, most deserving at the time of taking the Bachelor's degree.

The best Reader in Chapel receives £4. the second ditto £2. at the discretion of the Senior Dean.—Last year adjudged to Hamilton jun. and Allan sen.

Immediately after the division of the Easter term, the Sophs, Junior Sophs, and Freshmen, are publicly examined in the hall, and divided into classes according to their respective merits; those who are in the *first class* of each year, are entitled to a prize of books, which are distributed on the Commemoration-day.—The examiners are, the Head-Lecturer, the Greek and Latin Lecturers, and the four Sub-Lecturers.—The following are the respective first classes, as settled at the last examination. The names are arranged alphabetically:—

EMMANUEL COLLEGE.

(FOUNDED 1584.)

Copies of the Statutes in the British Museum, MSS. SLOANE, *No.* 1739.

The number of Foundation Fellowships at this college is twelve; besides one founded by Mr. Gillingham, the possessor of which receives a dividend

arising from a distinct estate, but is in most other respects on an equality with the Foundation Fellows. These thirteen Fellowships are open to Englishmen of all counties, with this restriction, that there cannot be more than one Fellow of the same county at the same time; and no man can be a candidate till he has taken the degree of M.A. or is at least a B.A. of the third year. He must be twenty-one years of age and have been six years a member of the university. All the Fellows are obliged to proceed to the degrees of M.A. and B.D. as soon as they are of sufficient standing. The four Seniors are obliged to take Priest's Orders.

Besides these thirteen there are two on Sir Wolstan Dixie's foundation, who are obliged to proceed to their degrees equally with those on the original foundation, but they have no vote in any college affairs, nor any claim to the offices or dividends of the college. Candidates for these Fellowships must have taken the degree of B.A. and must be related to the founder, or have been educated at Market Bosworth School in Leicestershire. The heirs of the founder nominate, and the college admits the nomination. There are likewise four Scholarships of Sir W. Dixie's foundation, subject to the same restrictions.

The Foundation Scholarships are open to Englishmen of all counties, but there cannot be more than three Scholars of the same county at the same time. The Scholars receive £7. per ann. in addition to the weekly payment of 7*s*. 6*d*. during residence. Besides these there are many Scholarships and Exhibitions, founded by various benefactors, to be given to the candidates most distinguished for learning and exemplary conduct.

Five by Dr. Thorpe, of £24. per annum, with a preference, *cæteris paribus*, to the sons of orthodox clergymen.

One by Mr. Hubbard, of £12. per annum, to the best of Dr. Thorpe's scholars.

Ten by Mr. Ash, of £10. per annum.

Four by Archdeacon Johnson, of £16. per annum, with a preference to candidates from Oakham and Uppingham Schools.

One by Dr. Smith, of £16. per annum, with a preference to Durham and Newcastle Schools.

Two by Mr. Richards, of £12. per annum, with a preference to Christ's Hospital. The scholars receive an allowance towards the expences of their B.A. and M.A. degrees.

Four by Dr. Whichcot, of 4*s*. per week during residence, which are entitled to the same privileges as those of the foundation.

One by Sir Busick Harwood, of £10. per ann. with a preference to a medical student.

There are several others of weekly payments, which, in addition to the former, are given to the most deserving candidates.

ANNUAL PRIZES.

At the division of the Easter term, the Junior Sophs and Freshmen are publicly examined, and a prize of books is given to the two best in each year.

PRIZE-MEN, 1821.

First year.	*Second year.*
Fearon	Warden
Green	Cory

Books to the amount of five guineas are given for the best Declamation in chapel, and to the amount of three guineas for the second.—This year divided equally between Cory and Fearon.

Plate to the value of £6. to the best proficient in each year of the commencing Bachelors of Arts; to which Mr. Hubbard added £6. should the Bachelor's name be in the first Tripos.

SIDNEY SUSSEX COLLEGE.

(Founded 1598.)

A Copy of the Statutes in the British Museum, Mss. Cole, xlvi. *P.* 193.

At this college there are nine Foundation Fellowships, all open to the natives of any part of his Majesty's dominions. Besides the Foundation Fellowships, there are two founded by Mr. Peter Blundell, appropriated to his scholars of this college; and one Fellowship founded by Leonard Smith, the nomination of which is vested in the Warden and Company of Fishmongers. The Blundell Fellowships are tenable for only ten years, and Smith's Fellowship for six years after the degree of M.A. but in other respects the Fellows have nearly the same privileges, authority, &c. as the Foundation Fellows.

A Mathematical Lectureship, present value £140. per annum, was founded by Mr. Taylor. The Lectureship is not tenable with a Fellowship, but may be held by a layman.

This is a divinity college; and all the Fellows of every description are obliged to take Orders within three years from the time of their election, and the degree of Bachelor in Divinity at the regular period prescribed by the university statutes.*

No Fellow of this college derives any benefit from his Fellowship unless he be a Master of Arts complete.

SCHOLARSHIPS.

Twenty Foundation Scholarships, perfectly open, value 7*s*. per week during residence.

Two Scholarships founded by Mr. Peter Blundell, appropriated to scholars from Tiverton School.

Two Mathematical Scholarships, founded by Mr. Taylor, value £10. per annum each.

* Seven years after M.A.—Stat. Acad. p.166.

EXHIBITIONS.

Archdeacon Johnson left four exhibitions, now £14. per ann. each, with preference to those educated at the schools of Oakham or Uppingham, in Rutland.

Mr. Lovett founded two exhibitions for clergymen's sons, now upwards of £40. per annum each; preference is given to candidates who have been three years at Grantham or Oakham School.

Mr. Bearcroft left two exhibitions for clergymen's sons, value £12. each per annum.

ANNUAL PRIZES.

Two Mathematical, one £12. another £9.—one Classical, £6.—to be expended in books.

One, £10. for the best proficient in Mathematics at the time of taking the degree of B.A.

DOWNING COLLEGE.

(Founded 22d Sept. 1800.)

The Charter and Statutes are printed.

This college will consist of a Master, two Professors (one of the Laws of England and one of Medicine,) sixteen Fellows (two of which only are Clerical,) and six Scholars. The objects of the foundation are stated in the charter to be Students in Law, Physic, and other useful arts and learning. At present only the Master, Professors, and three of the Lay Fellows are appointed, for the purpose of taking possession of the estates, administering the revenues, superintending the building of the college, and for the other necessary purposes. The appointment of the remaining Fellows is reserved until after the erection of the buildings necessary for the college.

The Scholars will also be elected after that period; but not more than two in each year. There are also two Chaplains, nominated by the Master.

The Master is elected by the Archbishops of Canterbury and York, and the Masters of St. John's and Clare hall, from among those who are or have been Professors or Fellows. The electors to the Professorships are the same as to the Mastership, with the addition of the Master.

The Professor of Law must be at the time of his election LL.D. M.A. or LL.B. of Cambridge or Oxford, of ten years standing from matriculation, and a barrister at law. The Professor of Medicine must be M.A. licensed to practise Physic for two years, or M.D. or M.B. of Cambridge or Oxford, or a member of a Scotch university of seven years standing, and twenty-five years of age, and who shall have attended the medical lectures in one of the Scotch universities for four years. The Professors are bound to read a course of lectures in their respective faculties, on the usual terms at which public lectures are given in the university. The Professorships are not vacated

by marriage, or by the possession of any property; and the Professors are capable of holding any of the lay offices in the college.

The electors to the Fellowships are, the Master, Professors, and Fellows of the degree of M.A. After the college is built, the elections will be annually on the 21st of February. All graduates of Cambridge or Oxford are eligible; but Lay Fellows must be under the age of 24, and Clerical Fellows under 30, and above 23, at the time of election. The only restriction is, that there shall never be eight Fellows natives of the same county at one time. While the college remains uncompleted, the elections to Fellowships are at uncertain times, depending upon the vacancies.

The Clerical Fellowships will be tenable for life; and subject to residence for a certain part of each term. The Lay Fellowships continue only for twelve years, and are not subject to any residence. Every Lay Fellow must declare either for Law or Physic. Those who declare for Law must be called to the bar within eight years after their election; and the Medical Fellows must take the degree of M.D. within two years after they are of sufficient standing. A Lay Fellow may also take orders after six years, without thereby vacating his Fellowship. Under certain circumstances, the four electors to the Mastership have a power to suspend the vacancy of a Lay Fellowship; but this power is limited to two Fellows living at any one time.

The sole founder of this college was Sir George Downing, Bart.* of Gamlingay Park, in this county; who by a will, dated 20th December 1717, devised his estates in the counties of Cambridge, Bedford, and Suffolk, first to Sir Jacob Garrard Downing, and afterwards to other relations in succession, and in failure thereof to build and found a college in this university, upon a plan to be approved by the two Archbishops and the Masters of St. John's and Clare hall. This direction was the reason for giving them

* He was installed a Knight of the most honourable Order of the Bath, June 30, 1732.

the power which they possess in elections and other matters, by the charter and statutes.

Sir George died in 1749, and Sir Jacob in 1764, and (the other devisees having previously died without issue) upon this event the foundation ought immediately to have been carried into execution. But the estates were in the possession of Lady Downing, and afterwards of her devisees, without any real title, and when the University sued in Chancery for the establishment of the college, the party in possession resisted the suit in that court. In 1769, a decree was obtained in favour of the foundation.

The persons named as trustees in the founder's will having died in his life time, the execution of the trusts devolved upon the heirs at law; who, after combating a long series of opposition and litigation, and overcoming obstacles of various descriptions, preferred a petition to the Crown for a Charter; and at length in 1800, the Privy Council decided to recommend the foundation to his Majesty.

On the 22d of September 1800, the Great Seal was affixed to the Charter by Lord Loughborough. By this Charter the college is incorporated, with all the privileges belonging to any college in the university, and endowed with the estate devised by the founder, with a power to hold landed property (in addition thereto) to the value of £1,500. per annum.

The Charter directs statutes to be framed for the government of the college, which was done in July 1805, and shortly afterwards the stipends of the members began to be paid.

By the statutes, no beneficial leases of the college estates are allowed, nor any fine to be taken for a grant or renewal. It is also provided that no new foundation shall ever be engrafted on this college, which shall be inconsistent with the charter and statutes. But the college may accept any additions to their property in augmentation of the number or value of their present appointments, or to be applied in any other manner consistent with their present constitution.

There is also a power given to the four electors and the Master, to alter the statutes, on application by a certain portion of the college.

The members appointed in the charter were, Francis Annesley, LL.D. *Master*; Edward Christian, M.A. and Barrister, *Law Professor*: Busick Harwood, M.D. *Professor of Medicine;* John Lens, Serjeant at Law, and M.A., William Meek, Barrister, and M.A., and William Frere, B.A. *Fellows.*

The late Mr. John Bowtell, of this town, who gave by his will a considerable property to charitable uses, bequeathed to Downing college a collection of books, manuscripts, fossils, and antiquities, with a request that the bookcase containing them might be placed in the college library. This building not being yet erected, one of the new rooms has been set apart for this purpose. Among the manuscripts is a History of the Topography and Antiquities of this town, prepared for publication by Mr. Bowtell.

A piece of land of nearly thirty acres having been purchased for the scite, and for grounds and walks, on the 18th of May, 1807, the first stone was laid; since which time the building has proceeded at intervals, at the expence of above £60,000. In the last year buildings sufficient for opening the college, and comprising nearly two sides of a large court, were completed: and in May 1821, undergraduates were admitted to reside and keep terms.

Visitor,
The Crown, by the Lord High Chancellor.

THE SENATE-HOUSE PROBLEMS,

Proposed by the two Moderators, to the Candidates for Honors, during the Examination for the Degree of B.A.

MONDAY, JANUARY 14, 1822.

MONDAY MORNING.——MR. CHEVALLIER.

First and Second Classes.

1. Find a series of fractions converging to $\sqrt{17}$.

2. If $ABCD$ is a parallelogram, and AC a diameter; and from B there be drawn a straight line cutting the diameter in E and the two sides, or the sides produced, in F, f respectively; shew that $EF \cdot Ef = BE^2$.

3. If $1, \rho, \rho^2, \ldots \rho^{n-1}$ are the roots of the equation $x^n - 1 = 0$; find the value of $1^m \cdot \rho^r + \rho^m 1^r +$ &c. $+ \rho^m \cdot \rho^{2r} + \rho^{2m} \cdot \rho^r +$ &c.

4. Integrate the quantities

$$\frac{dx}{x^n \sqrt{1+x^2}},$$ n being an even number;

$$\frac{dx}{x^2 \sqrt{a+bx+cx^2}}.$$

5. What must be the solid of revolution, so that when suspended by its vertex the center of oscillation may be in its base?

6. If a triangular prismatic beam is supported at both ends, shew that it is twice as strong when the edge is uppermost, as when the base is.

7. A person wishes to see distinctly when under water. What kind of glasses must he use, and of what focal length?

8. The autumnal equinox takes place at 6 in the evening, the Moon being full at the same instant, and in her ascending node. The next night the Moon rises at the *same hour*: required the north latitude of the place.

9. Given the base of a plane triangle, and the difference of the angles at the base to find the curve traced by the vertex.

10. Two equal heavy balls are suspended by wires of the same given length from the vertical axis of a machine, and are just in contact. How far will they separate from one another when a given angular velocity is communicated to the system?

11. Shew that if M and S represent the height of the tide produced by the Moon and Sun respectively; retardation of tide at new and full Moon : retardation in quadratures :: $M-S : M+S$.

12. Find the mean horary motion of the Moon's nodes, when the line of the nodes in is octants.

MONDAY AFTERNOON.——MR. CHEVALLIER.

Fifth and Sixth Classes.

1. The first term of a geometric series continued in infinitum is 1; and any term is equal to the sum of all the succeeding terms. Required the series.

2. Transform $x^3 - 2x^2 + 2x - 4 = 0$ into an equation, the roots of which are the squares of the roots of the original equation.

3. Sum the series

$$\frac{1}{2.4.6} + \frac{1}{4.6.8} + \text{\&c. to } n \text{ terms, and in infinitum.}$$

4. Trace the curve, the equation to which is $y^2 - ax - ab = 0$. Draw a tangent to it at any point; and determine the angle at which the curve cuts the axis.

5. In a spherical triangle, having given two angles and the included side, it is required to find the other angle.

6. Given

$$\left.\begin{array}{l}\log. 6753 = 3.8294967\\ \log. 6754 = 3.8295611\end{array}\right\} \text{ to find } \log. 67532.$$

7. Shew how the true value of a fraction may be found, the numerator and denominator of which both vanish upon assigning a particular value to the variable quantity: and find the value of

$$\frac{\tan. x + \sec. x - 1}{1 + \tan. x - \sec. x} \text{ when } x = 0.$$

8. Find the radius of curvature at any point of the catenary.

9. A body falls down a given inclined plane; and, at the instant that it begins to fall, another is projected upwards, from the bottom of the plane, with a velocity equal to that acquired in falling through n times its length. Where will they meet?

10. Find the position of the center of gravity of the quadrant of a circular area.

11. An isosceles triangle is immersed perpendicularly in a fluid, with its vertex coincident with the surface, and its base parallel to it. How must it be divided by a line parallel to the base, so that the pressure upon the upper and lower parts respectively may be in the ratio of 1 : 7?

12. When the same string passes over any number of pulleys, and the parts of the string supporting any pulley at the lower block are not parallel to one another, find the proportion between P and W in equilibrio.

13. A hollow cylinder is viewed by an eye placed in its axis produced. Compare its apparent capacity when empty and when filled with water.

14. By what methods may the variation of the compass be determined: and to what point does the true north correspond when the variation is 22° 30′ west?

15. Find the latitude of the place in which the longest day contains 16 hours.

16. A body is projected in a given direction, with a given velocity from a given point; and is acted upon by a *repulsive* force, which varies as the distance from another given point. Required the curve which it will describe.

17. How may the phenomena of the Trade Winds be explained?

18. A bucket descends into a well, unwinding a string from a cylinder of given weight and radius. What is the velocity acquired in falling through a given space, and the time of descent; the weight of the string being neglected?

19. Integrate the quantities

$$\frac{dx}{(1-x^2)^{\frac{3}{2}}}$$

$$\frac{dx}{a-bx^2}$$

$$\frac{dx}{x^3-3x^2+2x}.$$

20. A body describes a circle about a fixed point, the force varying inversely as the square of the distance: another body, the attractive force of which varies in the same law, is introduced into the system. How will this affect the velocity of the body, the form of the orbit, and the periodic time?

MONDAY AFTERNOON.——Mr. HIND.

Third and Fourth Classes.

1. Two weights sustain each other on two inclined planes having a common altitude by means of a string parallel to the planes: compare the pressures.

2. Prove that

$$2\,(\sin.^2 A \,.\, \sin.^2 B + \cos.^2 A \,.\, \cos.^2 B) = 1 + \cos. 2A \,.\, \cos. 2B.$$

3. PSp is any parameter of a parabola whose focus is S, and latus rectum L, prove that

$$4SP \,.\, Sp = L\,(SP + Sp).$$

4. A parallelogram and a triangle upon the same base and between the same parallels revolve round the base as an axis; prove that the solid generated by the triangle equals one-third of that generated by the parallelogram.

5. How much of the Earth's surface may be seen by a person raised n radii above it?

6. The ordinate to the axis of an ellipse is produced till it equals the corresponding subtangent: find the equation to the curve thus traced out and the area.

7. Given the sum of $2n$ quantities in arithmetical progression, and the sum of their squares, to find the quantities themselves.

8. Three equal weights are placed at the angles of an equilateral triangle without weight, which is suspended by an axis perpendicular to its plane bisecting one of the sides; find the centre of oscillation.

9. Prove Newton's 4th Lemma, (Sect. 1.) and by means of it find the content of an oblate spheroid.

10. Differentiate

(1) $\log. \dfrac{\sqrt{4ax + x^2} + x}{\sqrt{4ax + x^2} - x}.$

(2) $\dfrac{e^x \sqrt{e + x}}{e^{-x}\sqrt{e - x}}.$

and integrate

(1) $\dfrac{dx}{\sqrt{a + b\sqrt[3]{x}}}.$

(2) $\dfrac{dx\sqrt{a^2 + x^2}}{x^8}.$

(3) $e^{ax} \cos. x . dx .$

11. A vessel of given altitude empties itself through an orifice of given dimensions in its lowest point, and the upper surface descends with a given uniform velocity: find the content of the vessel.

12. A ray of light issuing from a point in the extreme ordinate of a parabola is incident in a direction parallel to the axis, and after two reflections at the curve meets the ordinate again: prove that the length of the path described will be the same from whatever point in the ordinate the ray proceeds.

13. Find the area included between any two radii of a spiral where the angle contained between them is the measure of their ratio.

14. Given the velocity of projection equal to the velocity in a circle at the same distance, (force $\propto \dfrac{1}{D^2}$), required the direction in which a body must be projected at a given distance, that the focus of the conic section described may bisect the semi-axis major; and determine the magnitude and position of the axes.

15. The plane of a vertical dial is inclined at an angle of 45^0 to the plane of the meridian in a latitude whose sine $= \frac{1}{\sqrt{3}}$: find the position of the substile, the altitude of the stile, and the hour lines.

MONDAY EVENING.——Mr. HIND.

1. Shew that $y^{mn}-1$ is divisible by either of the quantities y^m-1 and y^n-1 without a remainder.

2. In an isosceles plane triangle, prove, *geometrically*, that the versed sine of the vertical angle : radius :: the square of the base : twice the square of either side.

3. Given the m^{th} and n^{th} terms of an harmonical progression, to find the $(m+n)^{th}$ term.

4. The Earth being considered a perfect sphere, prove that at any place the length of a degree of latitude : the length of a degree of longitude :: radius : cosine of latitude.

5. Prove that $\cos.(A+B) \cdot \sin.(A-B) + \cos.(B+C) \cdot \sin.(B-C) + \cos.(C+D) \cdot \sin.(C-D) + \cos.(D+A) \cdot \sin.(D-A) = 0$.

Investigate the following formulæ,

$$\cos.\theta = \frac{e^{\theta\sqrt{-1}} + e^{-\theta\sqrt{-1}}}{2},$$

$$\sin.\theta = \frac{e^{\theta\sqrt{-1}} - e^{-\theta\sqrt{-1}}}{2\sqrt{-1}},$$

and thence prove that

$$\frac{\sin.A}{1-\cos.A} = \cot.\frac{A}{2}.$$

6. Find the time of emptying a sphere filled with fluid through an orifice in its lowest point.

7. Prove that $\log.(n+1) = \log. n + 2\log.\left(\frac{2n+2}{2n+1}\right) + \log.\frac{(2n+1)^2}{(2n+1)^2-1}$.

8. Find the surface of an equilateral and equiangular spherical polygon of n sides, and determine the value of each of the angles when the surface equals half the surface of the sphere.

9. Required the radius of curvature of the curve whose equation is $\frac{x}{y} = \frac{a+y}{a-x}$, and determine the coordinates of the centre.

10. A ball, whose elasticity : perfect elasticity :: $n : 1$, is projected with a given velocity in a direction making an angle of 60^0 with the horizon, and when at its greatest height, is reflected by a vertical plane: determine where the ball will again strike the horizon, and the whole time of flight.

11. Investigate a differential expression for the surface of a solid of revolution, and apply it to find the surface of the solid generated by the figure of tangents revolving round its axis.

12. Shew how every case of oblique spherical triangles may be solved by Napier's rules *only*.

13. Investigate the apsidal equation, and shew what number of possible positive roots it can have, when the velocity is acquired from a finite distance and the force varies as D^{n-1}.

14. Given the logarithms of $(1+x)$ and $(1+2x)$, shew how the logarithm of $(1+3x)$ may be computed.

15. Define the centre of spontaneous rotation; shew generally how it may be found; and determine it when a straight rod of uniform density and given length is struck perpendicularly at a given point.

16. If the area of a curve between any two values of one abscissa can be expressed in finite terms; shew that the area between two values of any other abscissa of the same curve can be found.

17. The density of different parts of a circle varies as the square of the distance from the centre: find the velocity acquired by a corpuscle attracted towards this circle in a line passing through its centre and perpendicular to its plane, the attractive force of each particle varying as $\frac{1}{D^2}$.

18. State generally the principal of *virtual velocities*, and from it deduce the position of equilibrium of a straight rod of uniform density placed on two inclined planes.

19. Find the n^{th} differential of $\sqrt{1-x^2}$.

Find also $\int \frac{dx}{\sqrt{1-x^2}} \cdot \int \frac{dx}{\sqrt{1-x^2}}$,

and $\int dx\,(a^2+b^2-2ab\cos.x)^n$ from $x=0$ to $x=180^0$, and determine the relation between x and y when

$$\frac{d^2y}{dx^2} - A \cdot \frac{dy^2}{dx^2} + B \cdot \frac{dy^3}{dx^3} = 0.$$

20. Find the whole times of ascent and descent of a body urged by the force of gravity in a medium whereof the resistance varies as the square of the velocity, and give *Newton's* constructions.

21. Sum the following series,

(1) $\frac{2x}{1.3} + \frac{3x^2}{3.5} + \frac{4x^3}{5.7}$ + &c. ad inf.

(2) $\frac{\cos.\theta}{1^2} - \frac{\cos.2\theta}{2^2} + \frac{\cos.3\theta}{3^2}$ − &c. ad inf.

(3) $\tan.\theta \cdot \left(\tan.\frac{\theta}{2}\right)^2 + 2\tan.\frac{\theta}{2} \cdot \left(\tan.\frac{\theta}{4}\right)^2 + 4\tan.\frac{\theta}{4} \cdot \left(\tan.\frac{\theta}{8}\right)^2$ + &c. to (n) terms.

22. Find the horary motion of the Moon's nodes in a circular orbit.

Newton, Prop. 30. Book iii.

23. A ray of homogeneal light is refracted through a double convex lens: compare the densities in different parts of the circle of chromatic dispersion.

24. The sum of the areas described by any number of bodies round a given point, multiplied by the respective masses of the bodies, is proportional to the time, supposing them to be acted upon *only* by their mutual attractions, and by the force tending to the given point.

TUESDAY MORNING.——Mr. HIND.

First and Second Classes.

1. A and B can do a piece of work in m days; B and C in n days: in what time can A and C do the same, supposing that A can do p times as much as B in a given time?

2. A normal drawn to a cissoid at the point where it cuts the generating circle, meets the axis produced in a certain point: prove that the line intercepted between this point and the vertex of the cissoid is divided into three equal parts by the centre and the further extremity of the diameter, of the generating circle.

3. The distance of the centre of gravity of a cycloid from the vertex $= \frac{7}{12}$ of the axis: compare, from this, the contents of the solids generated by its revolution round the base and a tangent at the vertex.

4. Prove that the cube of any number, and the number itself being divided by 6 leave the same remainder.

5. Two straight rods equal in length are suspended by their extremities, one being of uniform density, and the density of the other varying as the n^{th} power of the distance from the point of suspension, and they make small oscillations in times which are as $\sqrt{5} : \sqrt{6}$. Required the value of n.

6. An upright cylindrical vessel empties itself through an orifice in the base: compare the pressures upon the concave surface at first, and when half the time of emptying has elapsed.

7. Given the magnitude of a spherical surface, find the radius of the sphere so that the corresponding spherical segment may be the greatest possible.

8. Compare the momentum of a paraboloid with that of its inscribed cone, having the same base and vertex, when they both revolve round their common axis.

9. Investigate the equation to the curve, in which the area has the same ratio to the square of the ordinate that the ordinate has to the abscissa.

10. Given the latitudes and longitudes of two places on the Earth's surface, to find their distance.

11. Find the integral of

$$x^m \cdot dx \cdot (\log. x)^m \text{ from } x = 0 \text{ to } x = 1.$$

12. A string wrapped round a cylindrical annulus of uniform density whose radii are R and r, passes over a fixed pulley, and has a weight attached to it: find the space descended by the annulus in a given time.

13. Given the time, construct for the inclination of the lunar orbit to the plane of the ecliptic.

Newton, Prop. 35. Book iii.

TUESDAY AFTERNOON.——Mr. HIND.

Fifth and Sixth Classes.

1. Find the present worth of $P£$ due n years hence, at r per cent. discount.

2. Investigate the rule for the extraction of the square root in whole numbers, and determine, *generally*, the limit which the remainder after any operation cannot exceed.

3. Shew that the content of a sphere : the content of the greatest cone that can be inscribed in it :: $3^3 : 2^3$.

4. Given the ratio of the sines of the angles of a plane triangle, and the radius of the inscribed circle; to construct the triangle.

5. The orifices in the equal bases of two upright prismatic vessels are in the ratio of 2 : 1, and the vessels are emptied in equal times; compare their altitudes.

6. Prove that *Waring's* solution of a biquadratic equation fails when all the roots are impossible, and of the form $a \pm b\sqrt{-1}$.

7. Determine the point in P's orbit, (Sect. 11,) where the tangential ablatitious force is a mean proportional between the addititious and central ablatitious forces.

8. The roots of the equation $6x^4 - 43x^3 + 107x^2 - 108x + 36 = 0$ are of the form $a, b, \frac{a}{b}$ and $\frac{b}{a}$, find them: and shew what relation exists between the coefficients of a cubic whose roots are of the form $+a, -a$, and $\pm b$.

9. Find the point at which a ray of light parallel to the axis must be incident upon a concave spherical reflector, so that after two reflections it may cut the axis in a given angle.

10. The equation to a curve is $y = x^3 - 9x^2 + 24x + 16$; determine the values of the abscissa when the ordinate is a maximum, and when a minimum, and find the area included between those ordinates.

11. Differentiate

(1) $\log. (2x+1+2\sqrt{1+x+x^2})$.

(2) $(\cos.\theta + \sec.\theta)$.

Integrate

(1) $\dfrac{x^2\,dx}{(1+x^2)^2}$. (2) $\dfrac{x^{\frac{1}{2}}\,dx}{\sqrt{a+b\sqrt{x}}}$.

(3) $a\,dx\int b\,dx\int c\,dx$,

and find the values of

(1) $\dfrac{a^{\log. x}-1}{\log. x}$ when $x = 1$.

(2) $\dfrac{\log. \tan. x}{\log. \tan. \frac{x}{2}}$ when $x = 0$.

12. The magnitudes of three perfectly elastic bodies are in harmonical progression, prove that the momentum communicated to either of the extremes by the impact of the other equals the momentum of the mean moving with the velocity of the impinging body before impact.

13 Given the latitude of the place, and the length of the day, to find the time of the year.

14. If a body describe the arc of a cycloid by a force acting parallel to its base, prove that the force varies inversely as $2 \sin.\theta - \sin. 2\theta$, θ being the corresponding arc of the generating circle reckoning from the vertex.

TUESDAY AFTERNOON.——Mr. CHEVALLIER.

Third and Fourth Classes.

1. $S_1, S_2, S_3 \ldots S_n$ being the sums of n geometric series continued in infinitum, the first term of which is 1, and the common ratio $\frac{1}{r}, \frac{1}{r^2}, \frac{1}{r^3} \ldots \frac{1}{r^n}$, respectively. Required the sum of their reciprocals,

$$\frac{1}{S_1} + \frac{1}{S_2} + \frac{1}{S_3} \ldots + \frac{1}{S_n}.$$

2. Shew that cones and cylinders upon equal bases are to one another as their altitudes.

3. P supports W upon an axle, by means of a perpetual screw acting upon the circumference of the wheel. Required their proportion.

4. A sphere of glass and another of water being placed in air, what must be the proportion of their radii, that their magnifying powers may be the same?

5. A life-boat contains 100 cubic feet of wood, specific gravity .8; and 50 feet of air, specific gravity .0012. When filled with fresh water, what weight of iron ballast, specific gravity 7.645, must be thrown in before it will begin to sink?

6. Explain the different uses of a fly-wheel in machinery.

7. The velocity in an ellipse at the greatest distance is half that with which a body would move in a parabola at the same distance. What is the eccentricity of the ellipse?

8. Shew that the stereographic projection of a great circle of a sphere is a circle; and find the radius.

9. P descends vertically, drawing Q over a fixed pulley. Find the pressure upon the axis of the pulley; and its value when P is indefinitely increased.

10. A pendulum is composed of two thin wires of equal length, at right angles to each other at the point of suspension, and vibrating in their own plane. Find the time of a small oscillation; and the angle at which they must be inclined to each other, so that the time of oscillation may be doubled.

11. What effects are produced by aberration in the apparent places of the Moon and the Planets?

12. Shew that the inclination of the Moon's orbit is the greatest, when the line of the nodes is in syzygy; and the least, when the nodes are in quadrature and the Moon in syzygy.

TUESDAY EVENING.——Mr. CHEVALLIER.

1. Prove the rule for single position: state to what limitations it is subject: and apply it to find such a number that when divided by 3, 4, and 5, respectively, the sum of the quotients may be 94.

2. Shew that if an equation have two equal roots, and the terms are multiplied by the terms of an arithmetic progression, the result will $= 0$.

3. Find a quantity, which when multiplied into $a^{\frac{1}{3}} - b^{\frac{1}{3}}$ renders the product rational.

4. Given the place of a planet at noon, on March 20th, in Libra $3^{\circ}.\ 4'.\ 30''$; on the 21st in $8^{\circ}.\ 7'.\ 7''$; on the 22d in $13^{\circ}.\ 19'.\ 30''$; and on the 23d in $18^{\circ}.\ 41'.\ 44''$; to find its place on the 22d at 6^{h}.

5. Sum the series

$$\frac{1}{1.2.3} + \frac{1}{2.3.4} + \text{\&c}; \text{ to } n \text{ terms and in infin.}$$

$1^2 + 3^2 + 5^2 + \text{\&c.}$; to n terms.

$1 + 2x + 11x^2 + 43x^3 + \text{\&c.}$; in infinitum.

6. If Jupiter and Saturn are in conjunction with one another, and in opposition to the Sun, on a

given day; and their periodic times are 12 years and 29.5 years respectively; when will they again be in the same position?

7. A weight W is raised upon a moveable pulley. The two extremities of the cord are wound in different directions about two cylinders, which have a common axis but different radii; and the power P descends unwinding a string from a wheel of given radius upon the same axis. What is the force which accelerates P's descent, when the strings are parallel to each other?

8. In the scale of Reaumur's thermometer, the freezing point of water is 0, and the boiling point 80°. In the centigrade thermometer, those points are 0 and 100° respectively. What will be the degree of heat marked by each, when Fahrenheit's thermometer stands at 59°?

9. Given the altitude of the Sun, and the breadth of the penumbra which the top of a mountain throws upon a horizontal plane, to find the height of the mountain.

10. Explain Atwood's machine; and mention some of the facts which it establishes in the theory of motion uniformly accelerated or retarded.

11. A plane of given form and area is supported in the air as a kite, the wind acting in a direction parallel to the horizon: the weight of the string and materials being (w), and the horizontal pressure of the wind equivalent to a weight (p) upon each square foot, required the angle made by the plane with the horizon; and the greatest weight which it can support.

12. When the force by which a watch-balance is actuated varies as the n^{th} power of the distance from the point of the spiral spring's quiescence, find the alteration in the daily rate, in consequence of a given change in the arc of vibration.

13. Explain the method of deducing the Sun's parallax from the transit of an inferior planet.

14. A seconds pendulum of given length, in the form of a thin rectangular bar, suspended at the middle of its extremity by an axis perpendicular to its plane, is carried to the top of a mountain. The length of the bar is diminished by a given quantity in consequence of a change of temperature, the breadth remaining the same, and it loses t'' in a day. What is the height of the mountain ?

15. A cannon ball weighing 24 lbs. strikes a wall with a velocity of 1700 feet. Find the weight of a beam, terminated by a hemisphere of the same diameter as that of the ball, which, when moved with a velocity of 10 feet, may penetrate to the same depth; and the weight of a similar beam, which may have the same effect in *shaking* the wall.

16. A body not affected by gravity falls down the axis of a thin cylindrical tube infinite in length, the particles of which attract with a force which varies inversely as the square of the distance. Find the velocity acquired in falling through a given space.

17. Four persons A, B, C, D, in order, cut a pack of cards, replacing them after each cut, on condition that the first who cuts a heart shall win. What are their respective probabilities of success ?

18. A ship (P) begins to sail towards another (B) from a fixed point (C). At the same instant B begins to move in a direction perpendicular to P's first motion : P is always found in the line joining C and B; but can only accelerate her rate of sailing so as to retain the same distance from B as at first. What is the curve traced by P ?

19. Integrate

$$\frac{dx}{\sqrt{x^2+y^2}} - \frac{x\,dy}{y\sqrt{x^2+y^2}} = 0;$$

$$dy + y\,dx = a x^3\,dx;$$

$$dx\,dy - (x+a)\,d^2y - \frac{x\,dy^2}{b} = 0.$$

20. Two material points S and P, the mass of the first being twice that of the second, attract each other with a force which varies inversely as the square of the distance. When they have approached each other by half their original distance, P receives a new perpendicular impulse, which communicates to it a velocity equal to that which S has acquired. What curve is now described by each about the other?

21. Find the whole variation in the inclination of the Moon's orbit, as the Moon moves from quadrature to syzygy; the line of the nodes lying in quadrature.

Newt. Lib. iii. Prop. 34. Cor. 4.

22. Shew that, if a body oscillates in a cycloid, in a medium the resistance of which is constant, the successive altitudes to which it will rise are in arithmetical progression.

23. The axis of Archimedes' screw is inclined at a given angle to the horizontal section of the water. Find the highest and lowest points of the spiral tube, its point of inflection; and the quantity of water which can be raised in a given time by a given power.

24. If a body is acted upon by any forces which would, if separately communicated, cause it to revolve about given axes with given angular velocities; find its axis of rotation, and its angular velocity: and apply the conclusion where there are 3 axes at right angles to each other.

CRANE'S BENEFACTION.

John Crane, apothecary in Cambridge, and M.A. died in 1654, and left by his will money to buy an estate of *£62. per annum, to be settled on the five corporations following, *viz.* the University of Cambridge, the towns of Wisbech, Cambridge, Lynn, and Ipswich.† The rents to be received in order, and to be applied by the university in their turn towards the relief of sick scholars. The distribution to be made by the Vice-Chancellor, the Professors of Divinity, Law, and Physic, and the chief Apothecary of the town. The Master of Caius college is requested to assist the distributors. The gift to the town is to be disposed of in lending freely £20. to three young men to set them up in trade, they giving good security to re-pay the same at the end of twenty years. The choice to be by the Vice-Chancellor, the three Professors of Divinity, Law, and Physic, the chief Apothecary, the Mayor, Recorder, and three Aldermen, or greater part of them.

This disposal of the donation to the town is to continue till the fund amounts to £200. which is to be employed in lending £20. to ten young men at intervals, and to be re-paid at the end of twenty years, and again lent as before. The excess of the fund above £200. is to be employed in the relief of persons confined for debt, and of poor men and women of good character, at the discretion of the above-mentioned trustees.

* The present rent of the estate is above £300. per annum.

† The first payment was made about the year 1660.
